Help your patients prevent an unwanted pregnancy with ella. Effective when it matters most.

Help your patients get ella® with free overnight delivery through PRJKT RUBY

Why ella?
ella is a next-generation, prescription-strength emergency contraceptive (EC) that is effective when it matters most. ella is available in convenient, single-tablet dosing and is the only EC that:

• Works in the most fertile time of a woman’s cycle—the 24 hours before ovulation
• Uniquely delays ovulation even when luteinizing hormone is rising

Rely on ella—an EC with more than 11 million purchases worldwide.

Ordering ella through PRJKT RUBY is easy
PRJKT RUBY empowers women to take control of their sexual health by offering low-cost birth control options through a simple, safe, and private website. If you are unable to fulfill requests for ECs, or if your patients’ local pharmacies are out of stock, they can easily order ella at PRJKTRUBY.com and get:

• ella for $67 with free overnight delivery • Confidential access to emergency contraception

Interested in stocking and dispensing ECs from your office? Please visit Afaxys booth #1419 to learn more.

ella Important Safety Information
The most common side effects of ella (ulipristal acetate) tablets include headache (18%), abdominal pain (12%), nausea (12%), dysmenorrhea (9%), fatigue (6%), and dizziness (5%). ella is contraindicated in women with a known or suspected pregnancy, and should not replace a regular method of contraception. ella is not indicated for termination of an existing pregnancy. Women who become pregnant or complain of lower abdominal pain after taking ella should be evaluated for ectopic pregnancy. ella may alter the next expected menses. If menses is delayed beyond 1 week, pregnancy should be ruled out. ella is not recommended for use in breastfeeding women. A rapid return of fertility is likely following treatment with ella, therefore, a reliable barrier method of contraception should be used with subsequent acts of intercourse in that same menstrual cycle. Because ella and the progestin component of hormonal contraceptives both bind to the progesterone receptor, using them together could reduce their contraceptive effectiveness. After using ella, if a woman wishes to use hormonal contraception, she should do so no sooner than 5 days after intake of ella. Repeated use of ella within the same menstrual cycle is not recommended. Drugs or herbal products that induce CYP3A4 decrease the effectiveness of ella. ella does not protect against STI/HIV.1

</table>
Welcome to San Diego and the 65th Annual Clinical and Scientific Meeting of the American College of Obstetricians and Gynecologists.

Leaders and experts from around the world have come together to engage in discussion and critical knowledge-sharing about research, cutting-edge topics, and innovation.

Each day of this year’s conference offers a specialty focus: Saturday – Contraception/Family Planning, Sunday – Surgery, Monday – Sexuality and Menopause, Tuesday – Genetics, with many additional sessions offered every day that address content specific to our specialty in obstetrics and gynecology.

Plan to attend the Welcome Reception on Friday evening on the lawn outside of the Hilton Bayfront Hotel. Enjoy great cuisine and networking, with the perfect weather that can only be found in San Diego. We have three exciting speakers for this year’s President’s Program: Herbert Peterson, MD speaking on Health and Well-Being for All: Delivering on the Promise for Those We Serve; Neel Shah, MD speaking on System Complexity and the Challenge of Too much Medicine; and Guy Winch, PhD speaking on The Science of Healing Thy Self.’ Dr. Winch will also host a book signing in the ACOG Bookstore following his presentation.

The exhibit hall will have its grand opening on Sunday with complimentary lunch offered to all attendees on Sunday afternoon and complimentary coffee offered during the breaks on Monday. The 2017 ACOG Mix & Mingle Alumni Reception and the Medical Student/JFCAC/Young Physician Reception will be held on Sunday evening. The Convocation of New Fellows will be on Monday morning this year beginning at 9:00 AM. Be sure to attend!

Melanie and I look forward to seeing you around San Diego!

Thomas M. Gellhaus, MD
President, The American College of Obstetricians and Gynecologists

COMMITTEE ON SCIENTIFIC PROGRAM

The ACOG Annual Meeting is a great opportunity to renew old friendships and make new ones. We hope you enjoy the program we have put together.

The Green Choice Fund

The Green Choice Fund’s purpose is to support innovative and creative ideas that come directly from Fellows and Junior Fellows actively serving as Green Coats. For the past four years, every member of the Committee on Scientific Program contributed. This incredible 100% participation rate inspired past Green Coats and other Fellows to donate as well. We hope you too will consider joining their efforts.

Committee Chairs

On behalf of the Committee on Scientific Program, we would like to welcome you to the 2017 ACOG Annual Clinical and Scientific Meeting – The Next Generation of Health Care!

The Scientific Program Committee has created an exciting meeting that highlights more science, more surgery, more technology with cutting-edge topics, and the all new: Education Arcade, where learning and games go hand-in-hand. Be sure to stop by the Sails Pavilion to join in the fun!

Other exciting sessions include:
- Colloquia Sessions and Debates
- Nezhat Live Telesurgery Forum
- More than 700 ePosters and research abstracts
- Film Festival on Saturday from 2:00 PM – 5:00 PM
- Subspecialty Sessions geared for the practicing ob-gyn

This year, be prepared to wake up and be refreshed by participating in morning exercise and yoga each day on the lawn of the Hilton Bayfront.

WELCOME

ACOG ADVOCACY BOOTH
San Diego Convention Center, Sails Pavilion
Friday 3:00 PM – 6:00 PM
Saturday – Monday 8:00 AM – 5:00 PM
Tuesday 8:00 AM – 12:00 PM

Are you tired of politicians interfering with your practice? Curious about how to improve physician reimbursement and encourage medical liability reform? Interested in expanding access to care? Stop by the ACOG Advocacy Booth to find out how to do all of this and more!

MOBILE APP INFORMATION BOOTH HOURS
San Diego Convention Center, Lobby D
Friday 3:00 PM – 7:00 PM
Saturday – Monday 7:00 AM – 5:00 PM
Tuesday 7:00 AM – 4:00 PM

ACOG CAREER CONNECTION LIVE!
San Diego Convention Center, Sails Pavilion
Saturday – Monday 8:00 AM – 5:00 PM

Don’t miss ACOG Career Connection area in the Convention Center. CV reviews by healthcare professionals. Search more than 600 ob-gyn jobs and check out job search tips.

ACOG CAREER FAIR
San Diego Convention Center, Room 6B
Tuesday 8:00 AM – 10:00 AM

The Career Fair will take place Tuesday morning at the Convention Center. The Career Fair provides the opportunity for candidates in all ob-gyn specialties and levels of training to speak face-to-face with hiring professionals. Employers can leverage this opportunity to personally engage with numerous qualified job seekers. Contact HeC.CareerFairs@Healthecareers.com

ACOG EXHIBIT BOOTH #825
San Diego Convention Center, Hall FGH
Sunday 10:00 AM – 5:00 PM
Monday 10:00 AM – 5:00 PM

Don’t forget to stop by the ACOG Booth. The ACOG Booth is the one place to obtain information on the many activities of the College and Congress. College and Congress publications and products will be on display and samples of many of the patient education pamphlets will also be available.

Please join staff in the booth for the Museum Game to test your knowledge of the history of obstetrics and gynecology.

Visit the newest inductees into the Hall of Fame:
Sunday, May 7th
Roger K. Freeman, MD 11:30 AM – 12:00 PM
Ralph W. Hale, MD 12:15 PM – 12:45 PM

Monday, May 8th
John E. Buster, MD 10:00 AM – 10:30 AM
Donald R. Ostergard, MD 3:00 PM – 3:30 PM

Throughout the meeting, staff from various committees and programs will be on hand to provide members with information and answer questions about services and development of guidelines. In addition, staff will be available to answer any questions you may have regarding the ABOG Maintenance of Certification program.

Editors and staff from Obstetrics & Gynecology will be present to discuss future plans and answer questions about submitting articles for publication.
GENERAL INFORMATION

CHILD CARE
Bayfront Hilton Headquarters Hotel, Aqua Salon DEF
Friday 6:00 PM – 7:30 PM
Saturday - Tuesday 7:30 AM – 5:30 PM

COLLEGE BOOKSTORE
San Diego Convention Center, Sails Pavilion
Friday 3:00 PM – 6:00 PM
Saturday - Monday 8:00 AM – 5:00 PM
Tuesday 8:00 AM – 12:00 PM
Browse through our vast assortment of best-selling and new resources, including PROLOG's latest editions, Patient Management in the Office, Seventh Edition and Female Pelvic Medicine and Reconstructive Surgery; our best-selling baby book – Your Pregnancy and Childbirth, Month to Month, Sixth Edition; the 2017 Compendium of Selected Publications USB Drive; the latest ICD-10-CM coding resources, and must-have College Guidelines. The College Bookstore is open daily. Our courteous staff will assist you whether your purchase is hand carried or shipped.
Stop by the College Bookstore and enter for a chance to win a $100 gift certificate!

CONEGRATE BOOTH HOURS
San Diego Convention Center, Sails Pavilion
Saturday 7:00 AM – 5:30 PM
Sunday 7:00 AM – 5:30 PM
Monday 7:00 AM – 6:00 PM
Tuesday 7:00 AM – 5:00 PM

DAILY FOCUS
Every day has topics that cover the breadth of obstetrics and gynecology. In addition, there is a daily concentration of presentations:

Saturday Contraception/Family Planning Supported by CoverHer.org
Sunday Surgery
Monday Sexuality and Menopause Supported by TherapeuticsMD
Tuesday Genetics Supported by Myriad

DONOR LOUNGE
San Diego Convention Center, 28AB
Saturday 7:30 AM – 5:00 PM
The Lounge, exclusively for President’s, Beacham, Reis and Junior Fellows’ Society Members.

EXHIBIT HALL GAME
You have to play to win! Make your way through the exhibit hall stopping at each of the booths designated on the QR Code Game playing card found in your registration materials. At each of the participating booths, scan the QR code to receive a letter clue. Once you have scanned all QR codes, unscramble the letters to complete your playing card.
Drop your completed playing card off in the Education Arcade in the Sails Pavilion. At approximately 3:00 PM on Sunday and Monday, we will be drawing one daily winner of a new WiFi iPad. Winners do not need to be present at the drawings, but you must complete your entry properly to win.

ACOG Education Arcade - NEW THIS YEAR!!!
San Diego Convention Center, Sails Pavilion
Visit the Education Arcade and Exhibit Booth, which encourages all meeting attendees to take a break, play some educational games, and win prizes.
We will have four games this year:
• PROLOG Games – 4 separate games that test your knowledge in ob-gyn
• Museum Game – A history- and artifact-based game
• Squares – Get involved and move around to answer the questions faster than your colleagues
• Ob-Gyn Challenge – Offered at the beginning of selected sessions and played through your smartphone or tablet
See page 10 of the final program for more details.

HALL OF FAME
ACOG EXHIBIT BOOTH #825
San Diego Convention Center, Hall FGH
Stop by the ACOG Booth to have a photo op with the ACOG’s Hall of Fame.

Sunday 11:30 AM – 12:00 PM Dr. Roger Freeman
Sunday 12:15 PM – 12:45 PM Dr. Ralph Hale
Monday 10:00 AM – 10:30 AM Dr. John Buster
Monday 3:00 PM – 3:30 PM Dr. Don Ostergard

INDUCTION OF NEW FELLOWS
New Fellows will be inducted during the Presidential Inauguration and Convocation at 9:00 AM on Monday, May 8, 2017 in Hall D of the San Diego Convention Center. New Fellows will be recognized individually as they are called by name to walk across the stage and receive their certificates from the ACOG Executive Vice President. A professional photographer will take pictures as New Fellows shake hands with the ACOG President. Fellows admitted in 2016 through March 1, 2017 and Fellows from the class of 2015 are invited to participate. Immediately following the Presidential Inauguration and Convocation, a reception will be held in the Exhibit Hall to honor newly-inducted Fellows and their families.
MOTHER’S LOUNGE
San Diego Convention Center, Room 27B
Saturday – Tuesday 8:00 AM – 5:00 PM
ACOG will have a room in the convention center for mothers who are nursing. Breast pumps and individual collection kits will be available for those who need this service at the information Kiosk outside Ballroom 20A. The Mothers’ Lounge equipment is free of charge to Annual Meeting attendees. Storage is not permitted. The Mothers’ Lounge will be open 8:00 AM to 5:00 PM daily Saturday through Tuesday. Thank you to Medela for its support.

MURAL INFORMATION
San Diego Convention Center, Sails Pavilion
Friday 3:00 PM – 6:00 PM
Saturday – Monday 8:00 AM – 5:00 PM
Tuesday 8:00 AM – 12:00 PM
Help create a work of art at this year’s Annual Meeting
Annual Meeting attendees once again have a chance to add their own touch to a special art project that will go on display at the ACOG headquarters.
Joani Rothenberg, an internationally known artist, art therapist and wife of ACOG member Jeffrey M. Rothenberg, MD, along with her partner, Yael Buxbaum, have created a three-panel mosaic mural of blooming Washington cherry trees that attendees will help finish at each of the next two Annual Meetings - San Diego and Austin.
This year’s panel will be located in the Sails Pavilion. Attendees will take colored tiles and attach them to the mural. Everybody is encouraged to participate regardless of artistic ability. ACOG hopes this team-building project fosters a spirit of cooperation among members.
Rothenberg and Buxbaum will be available to offer help and answer questions.

CONVOCATION OFFICIAL PORTRAIT PHOTOGRAPHER
Event Photography of North America Corporation (EPNAC) is the Official Portrait Photographer for the American College of Obstetricians and Gynecologists this year in San Diego, CA!
The EPNAC staff are experts in their field for the Meeting and Hospitality industry. Their expertise, resources, and deep commitment to the craft make them an excellent choice for this special occasion. The photo studio is fully equipped with state of the art equipment, a backdrop, and the official College caps and gowns to provide you with the finest quality images. Their team is prepared to provide you with only the best personalized service.
The special ACOG package includes your sitting with their professional photographer in their studio, access to their online delivery system where you will find a number of images in high resolution that you can download, email or print on your own.
ACOG PACKAGE PRICE: $150.00.

PHOTOGRAPHY AND FILMING
Professional photographs, audio and video will be captured during the annual meeting. Attendees and their guests hereby grant ACOG and its representatives’ permission to be photographed and/or recorded by audio and/or video at the meeting. Attendees and their guests give ACOG permission to copyright, publish, and distribute these photographs, audio recordings and/or video recordings and use them in any and all media, including print and electronic for any lawful purpose. Attendees and their guests hereby release and discharge the College, its officers, directors, employees, agents, assigns, and designees from any and all claims and demand arising out of or in connection with the use of Annual Meeting photography, audio and/or video, including but not limited to any claims for defamation or invasion of privacy.

ROBING MONDAY, MAY 8
Robing will be available in Hall E of the San Diego Convention Center at the following times:
7:00 AM: PAST PRESIDENTS and AWARD WINNERS (Photo Session)
7:30 AM: Executive Board Members and Special Guests (VIPs)
7:30 AM: New Fellows

SENIOR AND FOUNDING FELLOW LOUNGE
Welcome Founding, Life and Senior Fellows! Come gather with colleagues and friends. The Senior and Fellow Founding Lounge will be located in the San Diego Convention Center, Room 21 and will be open Saturday through Tuesday.

SHUTTLE BUS SERVICE
Shuttle bus services will not be provided.

SOCIAL MEDIA – Facebook and Twitter
ACOG Annual Meeting @ACOG_AM Log on to Facebook for meeting highlights and tips for the next day’s events: www.facebook.com/ACOGANNUALMEETING Annual Meeting @ACOG_AM Follow us on Twitter @ACOG_AM. LEARN WHILE HAVING FUN
Introducing the ACOG Education Arcade

TAKE A BREAK, PLAY SOME GAMES, WIN PRIZES—AND CHALLENGE YOURSELF!

Take part in the ACOG Education Arcade located in the Sails Pavilion and ACOG Booth where learning, gaming, and fun come together! Test your knowledge with these 4 great games:

**PROLOG GAMES**

Try out the new PROLOG online games—test yourself with a timed challenge, marathon answering mode, and more!

**WHEN & WHERE:**
- **Saturday–Monday,** all day in the Education Arcade located in the Sails Pavilion
- **Sunday–Monday,** all day in the ACOG booth located in the Exhibit Hall

**MUSEUM GAME**

Like trivia? See how much you know about ob-gyn and ACOG history.

**WHEN & WHERE:**
- **Sunday–Monday,** all day in the ACOG booth located in the Exhibit Hall

**Squares**

Remember musical chairs as a child? In this take on the classic game, players move around the room to answer questions correctly. Last person standing wins.

**WHEN & WHERE:**
Education Arcade located in the Sails Pavilion:
- **Saturday,** 11:40am–11:55am; 12:20pm–12:35pm
- **Sunday,** 10:15am–10:30am; 3:15pm–3:30pm
- **Monday,** 11:40am–11:55am; 12:20pm–12:35pm

**Ob-Gyn Challenge**

Quiz yourself while challenging your peers. Answer five multiple-choice ob-gyn questions; top scores will be displayed at the end of each session.

**WHEN & WHERE:**
- **On your smartphone or tablet,** at the beginning of selected colloquia and clinical seminar sessions

DISCLOSURE OF FACULTY AND INDUSTRY RELATIONSHIPS

In accordance with College policy, faculty members and planning committee members have been asked to sign a statement in which they have disclosed any financial interests or other relationships with industry relative to topics they will discuss at this program. At the beginning of the program, faculty members are expected to disclose any such information to participants. Such disclosure allows you to better evaluate the objectivity of the information presented in lectures. Please report on your evaluation form any undisclosed conflict of interest you perceive.

2017 Meeting Objectives

At the conclusion of the 2017 Annual Clinical and Scientific Meeting, participants should be able to:

- Identify the next generation of health care.
- Describe whether egg freezing should be a routine offering in clinical practice.
- Cite pros and cons of whether birth control options should be over the counter.
- Describe the use of electrosurgery in gynecologic surgery.
- Describe different approaches to hysterectomy including robotic vs. laparoscopic.
- Describe the USPSTF guidelines for breast cancer screening.
- Discuss whether routine cystoscopy should be done at the time of hysterectomy.
- Describe strategies for use of cosmetic gynecology.
- Discuss if we should abandon the diagnosis of cervical insufficiency.
- Differentiate primary approach to pelvic pain via medical management or surgery, due to the impact of patient safety.
- Describe how sexual dysfunction and menopause interrelate.
3rd Annual Drs. Camran, Farr, and Ceana Nezhat
LIVE TELESURGERY FORUM

SUNDAY, MAY 7 • 8:30 AM - 11:30 AM
San Diego Convention Center • Ballroom 20BC

This intense, exciting 3-hour session provides live surgical demonstrations with audience participation. Goal is to share best practices of renowned international surgeons in safe, effective hysteroscopic and laparoscopic surgery. **Surgeries are broadcast from two locations.**

---

**Robotic-Assisted Laparoscopic Sacrocolpopexy and Single Incision Total Hysterectomy**

*New York-Presbyterian Hospital/Weill-Cornell Medical Center, New York, NY*

**SURGEONS:**
Sudeshna Chatterjee-Paer, MD
Patrick Culligan, MD, FACOG, FACS
Tanaka Dune, MD, FACOG
Kevin Holcomb, MD, FACOG
Courtney Harris, PA

**SPONSOR:**
New York Presbyterian Hospital

---

**Fertility Enhancing Hysteroscopic and Laparoscopic Surgery with Demonstration of Room Set-Up**

*Northside Hospital*
*Atlanta, GA*

**SURGEONS:**
Ceana Nezhat, MD, FACOG, FACS
Andrew A. Toledo, MD, FACOG
Vicki Barnett, RN, MSN, CNOR

**SPONSOR:**
Northside Hospital
Karl Storz Endoscopy
SPECIAL EVENTS & SESSIONS

WELCOME RECEPTION
Hilton Bayfront Hotel, Bayfront Park
Friday 6:00 PM – 7:30 PM
Come to the lawn area outside of the Hilton Bayfront Hotel to enjoy music, great California cuisine, and networking at the annual Welcome Reception. The sights, sounds, and one-of-a-kind vibe can only be found in Californian! Childcare available!

OPENING CEREMONIES AND PRESIDENT’S PROGRAM
San Diego Convention Center, Hall D
Saturday 8:00 AM – 10:00 AM
ACOG President Thomas M. Gellhaus, MD, presides over the opening of the 65th Annual Clinical and Scientific Meeting on Saturday, May 6. Session also includes the President’s Program of specially selected addresses from luminaries in the field.

MEDICAL STUDENT EVENTS
Get your medical career off to a great start with these specially designed programs and social events including the popular Medical Student Reception on Sunday evening and Medical Student Residency Fair on Monday.
See page 27 and 34 for a listing of all Medical Student events.

FILM FESTIVAL
San Diego Convention Center, Ballroom 20BC
Saturday 2:00 PM – 5:00 PM
This year’s Film Festival will feature top videos exploring an array of topics in obstetrics and gynecology. Each film submitted generally runs five to twelve minutes. The Committee on Scientific Program presents the Film Festival awards to recipients during the Film Festival. There will be an encore showing of only the films on Monday from 8:00 AM – 11:00 AM.

JENNY AND KEITH WHITE “ARE YOU SMARTER THAN A JUNIOR FELLOW?” SESSION
San Diego Convention Center, Hall D
Saturday 4:30 PM – 5:30 PM
The session is a twist on the popular television game show “Are You Smarter Than a Fifth Grader.” But, in the ACOG version, two Young Physicians will square off against two more senior ACOG Fellows. Each will attempt to answer two rounds of questions in the categories of obstetrics, gynecology, and office practice. If they struggle their only lifeline will be a panel of the best and brightest Junior Fellow “classmates.”

JUNIOR FELLOW DAY
Sunday 8:00 AM – 5:00 PM
Begin your transition from residency to practice with these events. Includes ABOG information for exam prep, financial planning, contracts & the business of medicine. See page 26 for a listing of Junior Fellow Day Events.

ACOG Education Arcade - NEW THIS YEAR!
PROLOG games: Saturday–Monday, all day in the Education Arcade located in the Sails Pavilion; Sunday–Monday, all day in the ACOG booth located in the Exhibit Hall
Squares: will be played in the Education Arcade located in the Sails Pavilion at the following times: Saturday, 11:40 AM – 11:55 AM; 12:20 AM – 12:35 AM
Sunday, 10:15 AM – 10:30 AM; 3:15 PM – 3:30 PM
Museum game: Sunday–Monday, all day in the ACOG booth in the Exhibit Hall
Ob-Gyn Challenge: On your smartphone or tablet, offered at the beginning of selected colloquia sessions See page 10 of the final program for more details.

DRS. CAMRAN, FARR, AND CEANA NEZHAT LIVE TELESURGERY FORUM
San Diego Convention Center, Room 20BC
Sunday 8:30 AM – 11:30 AM
During this exciting 3 hour CME approved live televised session we plan to demonstrate a variety of the most common surgical procedures with audience participation. The primary goal is to show methods of performing effective and safe minimally invasive gynecologic surgery.

2017 ACOG Mix & Mingle Alumni Reception
Hilton Bayfront Hotel, Sapphire Ballroom C-P
Sunday 6:00 PM – 8:00 PM
Be true to your school at this popular 4th annual opportunity to network and catch up. There is no additional fee to attend this event, but registration is required.
- Meet and socialize with residents and mentors
- Catch up on what’s been happening in your residency program since you left
- Enjoy a drink and get a taste of California with old and new friends

THE PRESIDENTIAL INAUGURATION AND CONVOCATION
San Diego Convention Center, Hall D
Monday 9:00 AM – 10:30 AM
Join us Monday morning to induct all new ACOG Fellows and welcome ACOG’s 68th president Dr. Haywood L. Brown deliver his inaugural address.
New Fellows will be recognized individually as they are called to the stage. Event begins at 9:00 AM and is followed by a reception in the Exhibit Hall from 10:30 AM – 11:15 AM.

Find additional information and course descriptions at www.acog.org/2017
GELLHAUS MCCAIN ADVOCACY LUNCH

Hilton Bayfront Hotel, Sapphire Ballroom AE
Monday 11:30 AM – 12:45 PM
All are welcome as ACOG's Gellhaus and McCain Fellows host a discussion of the new political realities in Washington and the potential consequences for women's health. Your lunch guest is Laurie Sobel, J.D., Associate Director for Women's Health Policy at the Kaiser Family Foundation. Ms. Sobel will examine the new Administration’s agenda, help unravel the political rhetoric, and provide historical perspective.

Don’t forget to register! Tickets for the lunch are $55.

GERALD AND BARBARA HOLZMAN STUMP THE PROFESSORS

San Diego Convention Center, Hall D
Monday 3:30 PM – 5:00 PM
The lively and fun Gerald and Barbara Holzman Stump the Professors session presents four cases from selected residents. The cases are common within everyday practice and within the scope of ob-gyn. Top medical professors will be put on the spot and asked to make the correct diagnosis from a real case from a Junior Fellow.

Cases to Stump You: What’s The Diagnosis? – NEW THIS YEAR!

San Diego Convention Center
There will be meter boards throughout the Convention Center with challenging cases. Can you make the correct diagnosis?

- Acute Abdomen During the Initial Postpartum Period
  Kristen Buono, MD, Kaiser Permanente, Santa Clara, CA

- Troubled Waters
  Adela Cope, MD, Mayo Clinic, Rochester, MN

- A “Shocking” Diagnosis in a Patient with Cervical Cancer
  Lauren Dockery, MD, University of Oklahoma Health Sciences Center, Oklahoma City, OK

- A Window with No Way Out
  Jeffrey Jankoski, Henry Ford Hospital/Wayne State University, Detroit, MI

- Does Occam’s Razor Apply?
  Kaila Krishnamoorthy, MD, Abington Hospital, Abington-Jefferson Health, Abington, PA

- GYN was Consulted, Why?
  Ashley Lopez, MD, Central Michigan University, Mt Pleasant, MI

- New Onset Bilateral Ovarian Masses in the Third Trimester Complicating Nonimmune Fetal Hydrops
  Natasha Mehandru, MD, St. Joseph’s Hospital & Medical Center, Phoenix, AZ

- Lump after the Bump
  Emma Qureshey, MD, Lehigh Valley Health Network, Allentown, PA

- Post-Operative Ascites of Unknown Origin
  Ashley Wiltshire, MD, Morehouse School of Medicine, Atlanta, GA

ACOG CAREER FAIR
San Diego Convention Center, Ballroom 6B
Tuesday 8:00 AM – 10:00 AM
The Career Fair provides the opportunity for candidates in all ob-gyn specialties and levels of training to speak face-to-face with hiring professionals. Employers can leverage this opportunity to personally engage with numerous qualified job seekers. Contact HeC.CareerFairs@Healthecareers.com

Young Physician Breakfast Forum
San Diego Convention Center, Room 7A
Tuesday 7:00 AM – 8:30 AM
The 13th Annual Young Physician Breakfast Forum is where ACOG Fellows within their first 8 years of fellowship can meet, network, and discuss issues relevant to beginning their medical careers in Ob-Gyn.

SUNRISE YOGA
Hilton Bayfront Hotel, Bayfront Lawn
Saturday 5:30 AM – 6:30 AM
Sunday 5:30 AM – 6:30 AM
Monday 5:30 AM – 6:30 AM
Join us for Sunrise Yoga. The perfect way to start the day!
2017
ANNUAL CLINICAL AND SCIENTIFIC MEETING
SAN DIEGO, CA • MAY 6–9, 2017

OFFICIAL ACOG 2017 HOTELS

Find additional information and course descriptions at www.acog.org/2017
### SESSION TRACKS:

#### Obstetrics (O)

#### Gynecology (G)

#### Practice (P)

### SESSION TYPES:

#### COLLOQUIA

Colloquia are keynote lectures held throughout each day of the scientific program. Many of the sessions will feature debates covering current and controversial topics.

These sessions are included in registration.

#### CLINICAL SEMINARS

These 60-minute sessions are interactive lectures on topics of special interest with a course director leading the discussion.

These sessions are included in registration.

#### CUTTING-EDGE TOPICS

This session features a panel of Presidents from subspecialty societies who will bring you up-to-date on the hot topics and current trends that have the most impact.

These sessions are included in registration.

#### EPOSTERS

An ePoster is an electronic poster displayed digitally instead of printed on paper as a traditional poster. Attendees will be able to view the electronic posters online before, during, and after the meeting.

These sessions are included in registration.

#### HANDS-ON COURSES

These 3 and 6 hour courses provide a didactic and interactive (hands-on) component so participants can further immerse themselves in learning.

Additional fee. Lunch is provided for 6 hour courses only.

#### FILM FESTIVAL

The Film Festival will present a select number of films showcasing various procedures and research in the advancements of the field of obstetrics and gynecology.

These sessions are included in registration.

#### FLIPPED CLASSROOMS

The Flipped Classroom is a new style of adult learning that features interactive and comprehensive learning and retention. Registrants will receive video and supplemental materials prior to the session to review. This enables the session to focus on more memorable content.

These sessions are included in registration.

#### LUNCH SEMINARS

In this forum, attendees enjoy a box lunch while listening to topics of particular clinical importance to their practice.

Additional $55.00 fee.

#### LUNCH CONVERSATIONS

Enjoy stimulating, professional exchanges during lunch. Subjects of special interest will be the focus of these small group discussions. Each group is limited to 9 attendees in addition to the discussion leader.

Additional $55.00 fee.

#### POSTGRADUATE COURSES

Clinically oriented 3 and 6 hour courses taught by leading experts in the field. Because learner participation is a valued part of each course, opportunities for interaction between participants and faculty are built into the program.

Additional fee. Lunch is provided for 6 hour courses only.

#### SURGICAL TUTORIALS

Surgical Tutorials will incorporate the use of slides, video, case-based formats, and interactive demonstrations.

These sessions are included in registration.

#### SUBSPECIALTY SOCIETY SESSIONS

These sessions are presented by subspecialty societies and are geared towards the practicing ob-gyn.

These sessions are included in registration.

### Congratulations

Haywood L. Brown, MD
Professor and Chair
Department of Obstetrics and Gynecology
Duke University Medical Center
Durham, NC

Congratulations on becoming the 68th President of The American College of Obstetricians and Gynecologists!

Thank you Dr. Brown for your unwavering commitment to the obstetrical care of women in our communities

Please join us for a reception in Dr. Brown’s honor during the Annual Clinical and Scientific Meeting.

JUNIOR FELLOW SUNDAY, MAY 7

JUNIOR FELLOWS, JOIN US
FROM 8:00 AM - 5:00 PM
FOR TWO PROGRAMS DESIGNED ESPECIALLY FOR YOU!

AMERICAN BOARD OF OBSTETRICS AND GYNECOLOGY

San Diego Convention Center, Ballroom 6C

8:00 AM – 8:15 AM
WELCOME/INTRODUCTIONS
KRISTEN ZELIGS, MD, JFCAC CHAIR

8:15 AM – 9:15 AM
ABOG AND THE WRITTEN EXAM
WILMA LARSEN, MD, SUSAN RAMIN, MD

9:30 AM – 11:00 AM
ABOG AND THE ORAL EXAM
WILMA LARSEN, MD, SUSAN RAMIN, MD, GEORGE WENDEL, MD

11:00 AM – 12:00 PM
THE DO’S AND DON'TS FOR YOUR CASE LIST...
BE PREPARED TO SHINE!
EDUARDO LARA-TORRE, MD

THE DR. SCOTT AND THE HONORABLE DR. NAN HAYWORTH JUNIOR FELLOW COURSE

Hilton San Diego Bayfront, Sapphire Ballroom EF

2:00 PM – 3:30 PM
FINANCIAL PLANNING FOR YOUNG PHYSICIANS – YOUR FINANCIAL APGAR
JAMES BREEDEN, MD

3:30 PM – 4:30 PM
CONTRACTS AND THE BUSINESS OF MEDICINE
STEPHEN H. KAUFMAN, JD

4:30 PM – 5:00 PM
CURRICULUM VITAE PREPARATION
KIRSTEN WIECKHORST
MEDICAL STUDENT EVENTS

The John M. Gibbons Jr., MD Medical Student Lecture: OB/Gyn as a Career

Saturday, May 6 1:30 PM - 4:30 PM
San Diego Convention Center, Ballroom 6C

CREOG & APGO Step Up to Residency Simulation and Didactics

Sunday, May 7 7:00 AM - 3:00 PM
San Diego Convention Center, Ballroom 6F

1-3 Year Medical Student Roundtable Discussion:
Finding the Right Residency and CV Personal Statement

Sunday, May 7 9:00 AM - 11:00 AM
San Diego Convention Center, Ballroom 6A

1-3 Year Medical Student Hands On Skills Workshop

Sunday, May 7 1:30 PM - 4:30 PM
San Diego Convention Center, Ballroom 6B

Medical Student, JFCAC Officer, YP Officer Reception

Sunday, May 7 5:30 PM - 6:30 PM
Hilton San Diego Bayfront, Sapphire Foyer

Medical Student Residency Fair

Monday, May 8 1:30 PM - 3:30 PM
San Diego Convention Center, Ballroom 6A

Medical Student, JFCAC Officer, and Young Physician Officer Reception

**Sunday, May 7, 2017**

**5:30-6:30 p.m.**

During ACOG’s Annual Meeting

**Hilton San Diego Bayfront**

**Sapphire Foyer**

San Diego, California

**All** registered medical students, JFCAC officers, Young Physician officers, Mentors, Ob-Gyn Program Directors, Ob-Gyn Clerkship Directors, Ob-Gyn Residency Coordinators and Ob-Gyn Residency Fair participants are welcome!

Complimentary hors d'oeuvres and refreshments will be provided by our reception sponsor **AMAG Pharmaceuticals**.

Medical student attendees are strongly encouraged to attend the Medical Student Event Workshops which precedes the reception.

For questions contact Katherine Miller: kmiller@acog.org

### Colloquia

**3:30 PM – 5:00 PM**

Gerald and Barbara Holzman Stump the Professors - COL15

**Professors:** Robert D. Alvarez, MD; Iffath A. Hoskins, MD; Deborah L. Myers, MD; Tony Ogburn, MD

**Presenters:** Ashley S. Atkins, MD; Maggie Dwiggins, MD; Charlene G. Echague, DO; Sara Muszynski, MD

**Moderator:** Sharon Phelan, MD

**Hall D**

### Clinical Seminars

**3:30 PM – 4:30 PM**

**O** Fertility Preservation for Adults and Children: An Essential Component of Next Generation Health Care - CS75

**Page 69**

**Kutluk Oktay, MD, PhD**

**Room 32AB**

**G** Chronic/Recurrent Vaginitis: New Research and Treatment Plans That Work - CS74

**Page 69**

**Chemen Mzima Neal, MD**

**Room 29AB**

**G** Later Termination of Pregnancy: Improving Services, Resources, and Referrals - CS77

**Page 70**

**Maureen Paul, MD, MPH**

**Room 31ABC**

**G** Review of Laparoscopic Safety and Techniques - CS73

**Page 69**

**Erica Robinson, MD**

**Ballroom 20D**

**G** Vulvovaginal Disease: From Accurate Diagnosis to Evidence Based Treatment - CS76

**Page 70**

**Gary Ventolini, MD, MPH, FAAFP**

**Room 29CD**

**P** Sex, Let’s Get It Right: Difficult Cases and Discussions - CS78

**Page 70**

**Brett Lawrence Worly, MD**

**Room 23AB**

### Flipped Classroom

**3:30 PM – 4:30 PM**

**O** Coming Full Circle: What To Do About Thrombophilias During Pregnancy - FL12

**Page 73**

**David E. Abel, MD**

**Room 24ABC**

### Oral Presentations

**4:30 PM – 4:40 PM**

Missed Opportunities to Identify Cardiovascular Disease in Women with Prior Preeclampsia

**Page 95**

**Irene Lewnard, MD**

**Ballroom 20A**

**4:45 PM – 4:55 PM**

Impact of Resident Overnight Duty Hour Changes on Obstetrical Outcomes: A Population-Based Cohort Study

**Page 95**

**Brian Liu, MD, FRCSC**

**Ballroom 20A**

Patient Management in The Office
SEVENTH EDITION

Topics covered include:

- Identifying epidemiologic factors contributing to health care problems encountered in office practice
- Determining best practice screening approaches
- Correlating presenting symptoms with diagnostic tools
- Describing traditional and alternative management strategies
- Counselling patients about risks and benefits of treatment
- Applying professional medical ethics to the practice of obstetrics and gynecology
- Assessing appropriate legal, risk management, and office management guidelines

Available in Multiple Formats

Print & eBook Combo (Best Value!)
Save $120 when you purchase both the print book and eBook. This package includes the assessment.

- Nonmember $205
- Member $175
- Junior fellow in training $145

Print
Includes the Critique book, the Assessment book, and the assessment.

- Nonmember $180
- Member $150
- Junior fellow in training $120

eBook
Access the latest information from your computer or tablet. Please note: You must purchase the online assessment at acog.org/prologexam.

- Nonmember $145
- Member $130
- Junior fellow in training $100

Visit the ACOG Book Store to receive 10% off your purchase.
Or save after the Meeting!
Use code AM2017 Offer expires 5/31/17

acog.org/prologPMO or call 800-762-2264
8:30 AM - 9:00 AM  President's Program
The Hale Lecture
Health and Well-Being for All: Delivering on the Promise for Those We Serve - COLIA
Hall D

*Introduced by Thomas M. Gellhaus, MD, Presiding President*

Herbert B. Peterson, MD, *UNC Gillings School, Chapel Hill, NC*

At the end of this course, the participant should be able to:

- Identify what we need to do to achieve our goals and objectives, i.e., the ‘what.’
- Determine what we need to do to ensure we get there, i.e., the ‘how.’
- Discuss the teamwork that will be required to assure our success, i.e., the ‘who.’

9:00 AM - 9:30 AM  President's Program
The Anna Marie D’Amico Lecture
System Complexity and the Challenge of Too Much Medicine - COLIB
Hall D

*Introduced by Thomas M. Gellhaus, MD, Presiding President*

Neel T. Shah, MD, MPP, *Beth Israel Deaconess Medical Center, Boston, MA*

At the end of this course, the participant should be able to:

- Discuss why childbirth provides an ideal prototype to test health system innovations.
- Describe how systems can exacerbate or alleviate common causes of fallibility in medical practice.
- Identify opportunities to design simple solutions to systemic clinical challenges.
9:30 AM - 10:00 AM  President’s Program

The Jim and Midge Breeden Lecture

**The Science of Healing Thy Self - COLIC**

Introduced by Thomas M. Gellhaus, MD, Presiding President

Guy Winch, PhD, New York

At the end of this course, the participant should be able to:

• Understand the importance of practicing ‘Emotional Hygiene’.
• Recognize the danger of ruminative thoughts and understand how to minimize them.
• Recognize changes in mood and behavior that indicate they need to address their emotional health.

10:25 AM - 11:15 AM

The Edith Louise Potter Memorial Lecture

**Debate: Should Egg Freezing be Routine? - COL2**

Introduced by Jared C. Robins, MD, Committee on Scientific Program

Guy Winch, PhD, New York

At the end of this course, the participant should be able to:

• Review the rationale for and process of elective egg freezing.
• Gain knowledge of existing data on oocyte cryopreservation regarding utilization, efficacy, and costs.
• Review the social implications of the use of this elective technology.

1:10 PM - 2:00 PM

The Irvin M. Cushner Memorial Lecture

**Debate: OTC Birth Control - COL3**

Introduced by J.K. Williams, MD, Committee on Scientific Program

Guy Winch, PhD, New York

At the end of this course, the participant should be able to:

• Consider issues beyond simply that of increased access regarding OTC oral contraceptives.
• Describe the pros and cons of OTC oral contraceptive access.
• Describe the logistical barriers/issues involved with OTC oral contraceptive access.

2:25 PM - 3:15 PM

The Benson and Pamela Harer Seminar on History

**Electrosurgery Then and Now - COL4**

Introduced by Richard S. Hansell, MD, Committee on Scientific Program

Guy Winch, PhD, New York

At the end of this course, the participant should be able to:

• Understand the fundamentals of electrosurgery.
• Explain the difference between insulation failure, capacitive coupling and direct coupling.
• Implement best practices for the safe application of monopolar energy.
3:40 PM - 4:30 PM
The Samuel A. Cosgrove Memorial Lecture
Debate: Robotic vs. Laparoscopic Hysterectomy - COL5
Hall D
Introduced by Kenneth H. Kim, MD, Committee on Scientific Program
Arnold P. Advincula, MD, Sloane Hospital for Women at New York Presbyterian/Columbia University Medical Center, New York, NY
Matthew Siedhoff, MD, MSCR, Cedars-Sinai Medical Center, Los Angeles, CA
At the end of this course, the participant should be able to:
• Learn the history of robotic laparoscopy in general and specifically in gynecologic surgery.
• Review the evidence regarding benefits and risks of robotic surgery compared to conventional laparoscopic surgery in gynecology.
• Understand clinical scenarios where robotic assistance might be especially helpful or represent an obstacle to success in minimally invasive gynecologic surgery.

4:30 PM - 5:30 PM
The Jenny and Keith White Are You Smarter Than A Junior Fellow? Session - COL6
Hall D
Moderators: Haywood L. Brown, MD, Duke University, Durham, NC and Kenneth H. Kim, MD, FACS, University of Alabama, Birmingham, AL
Fellow Team: Paula J. Adams Hillard, MD, Stanford University, Stanford, CA, F. Gary Cunningham, MD, University of Texas Western Medical Center, Dallas, TX
Young Physicians Team: Cynthia Brincat, MD, PhD, Loyola University, Baltimore, MD, Recia L. Frenn, MD, North Riverside, IL

8:10 AM - 9:00 AM
The John and Marney Mathers Lecture:
USPSTF Task Force Guidelines for Breast Cancer Screening - COL7
Hall D
Introduced by David S. Miller, MD, Committee on Scientific Program
Mark Pearlman, MD, University of Michigan Health Systems, Ann Arbor, MI
George Sawaya, MD, CA, University of California, San Francisco, CA
At the end of this course, the participant should be able to:
• Understand the process by which breast cancer screening recommendations are made.
• Understand current recommendations by major guideline groups for screening average-risk women.
• Understand differences and similarities in current recommendations and rationales.

9:25 AM - 10:15 AM
The John I. Brewer Memorial Lecture
Debate: Routine Cystoscopy at the Time of Hysterectomy - COL8
Hall D
Introduced by Amy E. Young, MD, Committee on Scientific Program
Lisa M. Peacock, MD, LSU Health, New Orleans, LA
Rebecca Rogers, MD, Dell Medical School in Austin, TX
At the end of this course, the participant should be able to:
• Compare the strengths, limitations, and risks of universal versus selective cystoscopy at the time of hysterectomy.
• Summarize the outcome data when implementing a policy of universal cystoscopy after hysterectomy.
• Recognize potential cost implications of universal cystoscopy after hysterectomy.
• Distinguish the differences between selective and universal cystoscopy.
10:40 AM - 11:30 AM
The Howard Taylor International Lecture
Debate: Cosmetic Gynecology: What Are We Doing? - COL9
Introduced by Rita W. Driggers, MD, Committee on Scientific Program
Cheryl Iglesia, MD, MedStar Health, Washington, DC
Mickey Karram, MD, The Christ Hospital Physicians, Cincinnati, OH
At the end of this course, the participant should be able to:
• List types of genital cosmetic procedures and procedures promoted for sexual enhancement; do they work and who should be performing them.
• Discuss currently available outcome data for energy sources used in gynecology and opportunities for innovation and research.

1:00 PM - 2:00 PM
March of Dimes Annual Lecture
Finding the Uterine Pacemaker - COL10
Introduced by Camille A. Clare, MD, MPH Committee on Scientific Program
Alison Cahill, MD, Washington University School of Medicine, St. Louis, MO
At the end of this course, the participant should be able to:
• Understand the current evidence based for contractions in clinical practice.
• Understand the existing knowledge gaps.
• Discuss on-going initiatives to better understand contractions and labor initiation.
• Review how discovery may aid in our understanding of labor and preterm labor.

2:25 PM - 3:15 PM
The Morton and Diane Stenchever Lecture
Debate: Should We Abandon the Diagnosis of Cervical Insufficiency? - COL11
Introduced by Kimberly D. Gregory, MD, MPH, Committee on Scientific Program
Jay D. Iams, MD, Ohio State University, Columbus, OH
John Owen, MD, Univ of Alabama at Birmingham, Birmingham, AL
At the end of this course, the participant should be able to:
• Understand the risks & benefits of current interventions for women whose pregnancies are complicated by premature cervical effacement and dilation, known as cervical insufficiency.
• Recognize the clinical presentations of cervical insufficiency.
• Embrace the multiple causes of premature cervical effacement and dilation.

3:40 PM - 4:30 PM
The ABOG Educational Foundation Lectureship on Patient Safety and Quality Improvement
Debate: Surgery vs. Medical Management for Primary Approach to Pelvic Pain - COL12
Introduced by Lauren D. Demosthenes, MD, Committee on Scientific Program
Lee A. Learman, MD, PhD. Charles E. Schmidt College of Medicine. Florida Atlantic University. Boca Raton, FL
Magdy Milad, MD, MS. Northwestern University. Evanston, IL

At the end of this course, the participant should be able to:

- Gain appreciation of the multiple etiologies contributing to chronic pelvic pain (CPP) in women.
- Contrast the potential benefits and harms of primary medical and surgical management of CPP.
- Identify gaps in evidence regarding the relative effectiveness of CPP treatments.

4:30 PM - 5:30 PM

2017 ABOG Maintenance of Certification - COL16

Introduced by Jason C. Massengill, MD. Committee on Scientific Program

Susan Ramin, MD. American Board of Obstetrics and Gynecology. Dallas, TX

At the end of this course, the participant should be able to:

- Review the current ABOG MOC program requirements.
- Understand the changes and enhancements implemented for 2017.
- Understand the Lifelong Learning (Part II) and MOC Examination (Part III) integration Pilot Program.

1:10 PM - 2:00 PM

The Donald F. Richardson Memorial Lecture

Controlling the Hot Flashes and Keeping the Heat in the Bedroom: Sexual Dysfunction and Menopause - COL14

Introduced by Constance Bohon, MD. Committee on Scientific Program

Maureen Whelihan, MD. Elite GYN Care of the Palm Beaches. Greenacres, FL

At the end of this course, the participant should be able to:

- Identify the most common sexual dysfunctions in an OBGYN practice.
- Develop techniques to focus on the underlying causes.
- Educate the patient on the risks/benefits of treatment.
- Direct the patient on various avenues of management.
- Understand your personal limitations in managing these patients.

3:30 PM - 5:00 PM

Gerald and Barbara Holzman Stump the Professors - COL15

Moderator: Sharon Phelan, MD. University of New Mexico. Albuquerque. NM

Professors: Ronald D. Alvarez, MD. University of Alabama. Birmingham, AL

Ifath A. Hoskins, MD. NYU School of Medicine. NYU Langone Medical Center. New York, NY

Deborah L. Myers, MD. Women’s & Infant Hospital. Providence, RI

Tony Ogburn. University of Texas Rio Grande Valley. Brownsville, TX

Case Presenters

Stroke of Luck
Ashley S. Atkins, MD. University of Texas Southwestern. Dallas, TX

The Curious Case of Post-Menopausal Bleeding
Maggie Dwiggins, MD. University of Illinois College of Medicine Peoria. Peoria, IL

An Atypical Cause of an Acute Abdomen
Charlene G. Echague, DO. Walter Reed National Military Medical Center. Bethesda, MD

An Elusive Gush
Sara Muszynski MD. St. Joseph Mercy Ann Arbor. Ann Arbor, MI
### Rooms are located in the Convention Center unless noted otherwise.

#### 10:15 AM - 11:15 AM

<td></td>
</tr>
<tr>
<td>Dikea Roussos-Ross, MD, <em>UF Health College of Medicine, Gainesville, FL</em></td>
<td></td>
</tr>
<tr>
<td>At the end of this course, the participant should be able to:</td>
<td></td>
</tr>
<tr>
<td>• Articulate the concept of group prenatal care, and its benefits for practice.</td>
<td></td>
</tr>
<tr>
<td>• Demonstrate competence in current evidence-based clinical outcomes associated with Centering Pregnancy.</td>
<td></td>
</tr>
<tr>
<td>• Implement group prenatal care into their practice.</td>
<td></td>
</tr>
<tr>
<td><strong>Preterm Birth - CS04</strong></td>
<td>Room 31ABC</td>
</tr>
<tr>
<td>Uma Reddy, MD, MPH, <em>NIH Pregnancy and Perinatology Branch, Bethesda, MD</em></td>
<td></td>
</tr>
<tr>
<td>At the end of this course, the participant should be able to:</td>
<td></td>
</tr>
<tr>
<td>• Identify the indications for treatments used to prevent preterm birth (PTB).</td>
<td></td>
</tr>
<tr>
<td>• Understand the use, benefits, and limitations of tests and tools available for prediction of PTB.</td>
<td></td>
</tr>
<tr>
<td>• Select the most appropriate management for the patient with a sonographically short cervix.</td>
<td></td>
</tr>
<tr>
<td><strong>OB Physical Therapy - CS06</strong></td>
<td>Room 29AB</td>
</tr>
<tr>
<td>Darla B. Cathcart, PT, DPT, WCS, CLT, <em>University of Central Arkansas, Conway, AR</em></td>
<td></td>
</tr>
<tr>
<td>At the end of this course, the participant should be able to:</td>
<td></td>
</tr>
<tr>
<td>• Describe prenatal conditions that can be managed with Physical Therapy, such as low back pain/Sciatica, pubic pain, and diastasis rectus abdominis.</td>
<td></td>
</tr>
<tr>
<td>• Perform a basic screening examination to identify pregnancy-related pelvic girdle pain conditions that are appropriate for physical therapy referral.</td>
<td></td>
</tr>
<tr>
<td>• Discuss current evidence regarding management of pregnancy and postpartum-related musculoskeletal conditions.</td>
<td></td>
</tr>
<tr>
<td><strong>The Pelvic Mass - CS02</strong></td>
<td>Room 29CD</td>
</tr>
<tr>
<td>Michael Frumovitz, MD, MPH, <em>Houston, TX</em></td>
<td></td>
</tr>
<tr>
<td>Pamela Soliman, MD, MPH, <em>Houston, TX</em></td>
<td></td>
</tr>
<tr>
<td>At the end of this course, the participant should be able to:</td>
<td></td>
</tr>
<tr>
<td>• Determine the appropriate evaluation of adnexal masses in pre- and post-menopausal women.</td>
<td></td>
</tr>
<tr>
<td>• Understand the strengths and weaknesses of preoperative screening tests for ovarian cancer.</td>
<td></td>
</tr>
<tr>
<td>• Determine which patients might best be triaged to a gynecologic oncologist.</td>
<td></td>
</tr>
<tr>
<td><strong>Menopausal Hormone Therapy: Are We Ready to Revisit Primary Prevention of CVD?</strong></td>
<td>Room 23AB</td>
</tr>
<tr>
<td>James A. Simon, MD, <em>Washington University and Women’s Health and Research Consultants, Washington, DC</em></td>
<td></td>
</tr>
<tr>
<td>At the end of this course, the participant should be able to:</td>
<td></td>
</tr>
<tr>
<td>• Expand the attendee’s toolbox for managing menopausal symptoms using both hormonal and non-hormonal approaches while separating fact from fiction.</td>
<td></td>
</tr>
<tr>
<td>• Review the latest publications on the benefits and risk of menopausal hormone therapy with an eye toward the impact of route of administration on risk.</td>
<td></td>
</tr>
<tr>
<td>• Assess whether there is a role for menopausal hormone therapy in the primary prevention of cardiovascular disease.</td>
<td></td>
</tr>

| Pathophysiology of Endometriosis - CS08                               | Room 29AB    |
| Gregory M. Christman, MD, University of Florida, Gainesville, FL    |              |
| At the end of this course, the participant should be able to:        |              |
| • Describe the role and utility of various medical and surgical options to address endometriosis associated pelvic pain and infertility. |
| • Discuss surgical approaches which have proven benefit and interventions that may actually be harmful to the patient’s future fertility goals. |
| • Provide an update on the latest research on endometriosis as a basis for potential lifestyle modifications and a framework for new treatment options. |

| Management of Adnexa at the Time of Benign Hysterectomy - CS11       | Room 29CD    |
| Emad Mikhail, MD, University of South Florida, Tampa, FL            |              |
| At the end of this course, the participant should be able to:       |              |
| • Understand the current trends for salpingectomy and oophorectomy during benign hysterectomy. |
| • Appreciate the pros and cons of salpingectomy and/or oophorectomy at the time of benign hysterectomy. |
| • Implant the appropriate physician-patient shared decision-making regarding adnexal management. |

| Fertility Preservation (Oncofertility Preservation) - CS07           | Room 31ABC   |
| Erica Wang, MD, MAS, Los Angeles, CA                                |              |
| At the end of this course, the participant should be able to:       |              |
| • Describe the established options for fertility preservation, including oocyte cryopreservation and embryo cryopreservation. |
| • List the medical indications for fertility preservation.           |
| • Discuss the risks and benefits for elective fertility preservation.|

Rooms are located in the Convention Center unless noted otherwise.
### SATURDAY

**CLINICAL SEMINARS**

Rooms are located in the Convention Center unless noted otherwise.

<table>
<thead>
<tr>
<th>Time</th>
<th>Event</th>

</thead>
<tbody>
<tr>
<td><strong>1:00 PM - 3:00 PM</strong></td>
<td><strong>Crime Scene Investigation and the Forensic Evaluation of the Sexual Assault Victim - CS12</strong>&lt;br&gt;Ballroom 20D&lt;br&gt;Randall Brown, MD, Baton Rouge, LA&lt;br&gt;At the end of this course, the participant should be able to:&lt;br&gt;• Understand the methods used in evaluating a crime scene.&lt;br&gt;• Understand trace evidence collection in investigating sexual assault.&lt;br&gt;• Become familiar with the CODIS system of DNA and how to match a profile to a suspect.</td>
</tr>
<tr>
<td><strong>2:15 PM - 3:15 PM</strong></td>
<td><strong>Financial Planning for Physicians - CS09</strong>&lt;br&gt;Room 32AB&lt;br&gt;James T. Breeden, MD, MS, CFP, Carson City, NV&lt;br&gt;At the end of this course, the participant should be able to:&lt;br&gt;• Understand financial planning concepts and risk management.&lt;br&gt;• Understand retirement &amp; estate planning, and education funding options.&lt;br&gt;• Understand investment principles &amp; utilize investments and asset allocation in relation to goals.</td>
</tr>
<tr>
<td><strong>2:15 PM - 3:15 PM</strong></td>
<td><strong>Update on Management of Abnormal Placentaition - CS15</strong>&lt;br&gt;Room 29AB&lt;br&gt;Tania Esakoff, MD, Encino, CA&lt;br&gt;At the end of this course, the participant should be able to:&lt;br&gt;• Discuss the increasing morbidity associated with abnormal placentation.&lt;br&gt;• Review diagnostic and management options for abnormal placentation.&lt;br&gt;• Propose management strategies for both timing of delivery and surgical interventions.</td>
</tr>
<tr>
<td><strong>2:15 PM - 3:15 PM</strong></td>
<td><strong>The Busy Obstetrician’s Guide to Breastfeeding Support: Maximum Impact, Minimum Effort - CS16</strong>&lt;br&gt;Room 29CD&lt;br&gt;Susan D. Rothenberg, MD, IBCLC, Mount Sinai Health System, New York, NY&lt;br&gt;At the end of this course, the participant should be able to:&lt;br&gt;• Discuss the major advantages of breastfeeding for baby and mother.&lt;br&gt;• Identify the most time-efficient ways to promote breastfeeding.&lt;br&gt;• Find resources online and in the community to assist patients in meeting their breastfeeding goals.</td>
</tr>
<tr>
<td><strong>2:15 PM - 3:15 PM</strong></td>
<td><strong>Medical Marijuana - CS17</strong>&lt;br&gt;Room 23AB&lt;br&gt;Nathaniel G. DeNicola, MD, DC, Penn Ob/Gyn Associates, Philadelphia, PA&lt;br&gt;At the end of this course, the participant should be able to:&lt;br&gt;• Describe the differences between medical marijuana and recreational marijuana in terms of THC and CBD.&lt;br&gt;• Understand the current review of literature describing evidence for known health risks of THC exposure during the prenatal and lactation period.&lt;br&gt;• Have a functional overview of THC risk spanning the range of: adolescence, prenatal, lactation, and perimenopause.</td>
</tr>
</tbody>
</table>
Sexuality in the Post Menopausal Period - CS13

Michael Krychman, MD, Newport Beach, CA

At the end of this course, the participant should be able to:
- Discuss GSM and its new terminology.
- Understand the new and emerging treatments for lowered sexual interest in postmenopausal women.
- Discuss a comprehensive treatment paradigm using both medical and non medical interventions.

Burnout: A Constant Threat - CS18

Roger Smith, MD, Charles E. Schmidt College of Medicine, Florida Atlantic University, Boca Raton, FL

At the end of this course, the participant should be able to:
- Describe the causes of professional burnout.
- List common symptoms associated with professional.
- Implement a healthy strategy to minimize the impact of stress and avoid burnout.

Evidence-Based Cesarean Delivery - CS22

Eric A. Strand, MD, Washington University School of Medicine in St. Louis, St. Louis, MO

At the end of this course, the participant should be able to:
- Describe appropriate antibiotic prophylaxis for cesarean delivery.
- List potential surgical risk factors for uterine rupture.
- Describe the potential benefits of a Joel-Cohen cesarean delivery technique.

Mesh Mess: Update on Slings and Grafts in Gynecology - CS19

David D. Rahn, MD, UT Southwestern, Dallas, TX

At the end of this course, the participant should be able to:
- Cite the indications, efficacy, and safety issues for various midurethral sling types.
- Appraise the rationale for mesh use in pelvic organ prolapse repair & its efficacy.
- Describe unique safety issues with transvaginal mesh for prolapse.

Endometrial Biopsy - CS20

Linda R. Duska, MD, MPH, University of Virginia, Charlottesville, VA

At the end of this course, the participant should be able to:
- Interpret the results of an endometrial biopsy pathology report.
- Recognize the common histologic findings of clinically indicated biopsy specimens.
- Discuss the management of common endometrial biopsy results.

GYN Physical Therapy - CS23

Darla B. Cathcart, PT, DPT, WCS, CLT, University of Central Arkansas, Conway, AR

At the end of this course, the participant should be able to:
- Describe Physical Therapy for bladder and bowel incontinence, obstructive voiding and defecation, prolapse, and pelvic pain conditions.
- Perform a basic screening examination for overactive and underactive pelvic muscles via subjective and objective findings.
- Identify patients appropriate for referral to physical therapy to address musculoskeletal contributions to pelvic health conditions.
**Noninvasive Prenatal Testing (NIPT) 2017: Overview and Update - CS21**  
Lorraine Dugoff, MD, Byn Mawr, PA  
At the end of this course, the participant should be able to:  
- Describe the performance characteristics associated with cfDNA testing.  
- Discuss the potential benefits and limitations associated with cfDNA testing.  
- Discuss potential causes of a false positive cfDNA result.

**Preexposure Prophylaxis for HIV Prevention - CS24**  
Kevin A. Ault, MD, Kansas City, KS  
At the end of this course, the participant should be able to:  
- Attendees will learn about the prior clinical trials that support the use of PrEP.  
- Identify women at the highest risk of acquiring HIV.  
- Use PrEP in their practice.

**National Women’s Law Center and Contraception - CS79**  
Mara Gandal-Powers, JD, National Women’s Law Center, Washington, DC  
Yasuko Yamamura, MD, University of Minnesota, Minneapolis, MN  
At the end of this course, the participant should be able to:  
- Understand the Affordable Care Act’s birth control benefit and what providers need to know about the constantly changing federal policy landscape.  
- Obtain information on National Women’s Law Center CoverHer hotline.

**5-Minute MFM Consult - CS28**  
Andrea D. Shields, MD, San Antonio, TX  
Yasuko Yamamura, MD, University of Minnesota, Minneapolis, MN  
At the end of this course, the participant should be able to:  
- Apply the available medical literature for evidence-based management of commonly encountered maternal.  
- Utilize appropriate therapeutic interventions for management of frequently seen pregnancy complication.  
- Counsel patients on the appropriate timing of delivery in high-risk pregnancies.

**Pain Management of Common Office-Based Gynecological Procedures - CS25**  
Rameet Singh, MD MPH, University of New Mexico, Albuquerque, NM  
Rebecca H. Allen, MD, MPH, Women & Infants Hospital, Providence, RI  
At the end of this course, the participant should be able to:  
- Understand why common office-based gynecological procedures are painful.  
- Understand the different options for pain management of common office-based gynecological procedures.  
- Understand the evidence for pain management options by common office based gynecological procedures.
**The Value of Surgical Mentorship in Gynecologic Surgery - CS26**

Susan S. Khalil, MD, *New York, NY*

At the end of this course, the participant should be able to:

- Assist in identifying a mentor and the purpose in a surgical specialty.
- Identify the responsibility of the mentee.
- Describe various roles for mentors and identify a sponsor and their role.

---

**Economics, MACRA - CS27**

Charles J. Lockwood, MD, MHCM, *USF Health, Tampa, FL*

At the end of this course, the participant should be able to:

- Implement an algorithm for the diagnosis and treatment of VTE during pregnancy.
- Appreciate the physiologic changes of pregnancy that impact cardiopulmonary arrest and venous thromboembolism during pregnancy.
- Examine the role of cesarean delivery as a component of resuscitation during CPR in pregnancy.

---

**Health Equity in Obstetrics and Gynecology: Improving Care for All Women - CS29**

Melissa A. Simon, MD, MPH, *Chicago, IL*

Lynn Yee, MD, MPH, *Chicago, IL*

At the end of this course, the participant should be able to:

- Describe how health inequities in issues such as cancer screening and treatment and perinatal care.
- Understand the current public health, epidemiologic, and clinical research being conducted on health.
- Describe ways in which clinicians, educators and researchers can work to reduce health inequities.

---

**The Move to a 100% Outpatient Practice - CS30**

Joseph Gauta, MD, *Florida Bladder Institute, Naples, FL*

At the end of this course, the participant should be able to:

- Identify and control the fears that prevent surgeons from performing advanced cases in outpatient settings.
- Develop strategies to bring difficult cases to the outpatient setting.
- Prepare for the pre and post-procedural work required to achieve successful results.

---

**The OB’s Guide to Bereavement and Aftercare for Stillbirth - CS33**

Rana Snipe Berry, MD, *Indiana School of Medicine, Indianapolis, IN*

At the end of this course, the participant should be able to:

- Discuss the prevalence of stillbirth and its major causes in the USA and abroad.
- Apply knowledge of grief stages and companioning concepts to aftercare for families affected by stillbirth/perinatal loss.
- Demonstrate how a postpartum appointment can be used to relay assessment data, recurrence counseling, and future pregnancy management.
Cesarean Epidemic: Etiologies, Outcomes, and Potential Solutions - CS34

Aaron B. Caughey, MD, PhD, Oregon Health & Science University, Portland, OR

At the end of this course, the participant should be able to:
- Describe the overall epidemiology of the cesarean trends in the U.S.
- Discuss the etiologies for the rise in cesareans in the U.S.
- Discuss approaches to reduce cesareans in the U.S.

Contraception: What You Need to Know in 2017 - CS31

Eve Espey, MD, MPH, University of New Mexico, Albuquerque, NM

At the end of this course, the participant should be able to:
- Understand recent changes in unintended pregnancy and explain current thinking on immediate postpartum contraception.
- Use the US Medical Eligibility (US MEC) in cases to identify candidates for contraceptive methods and the Selected Practice Recommendations.
- Describe a reproductive justice framework for contraceptive counseling.

Hereditary Cancers in Gynecology: What Physicians Should Know About Genetic Testing, Screening, and Risk Reduction - CS32

Susan Modesitt, MD, University of Virginia Health System, Charlottesville, VA

At the end of this course, the participant should be able to:
- Identify hallmarks of hereditary cancer susceptibility syndromes encountered in general practice and the role of genetic testing/counseling.
- Describe the recommendations as well as the pros/cons/pitfalls of screening for breast/ovarian and endometrial cancer in high risk women.
- Review both chemoprevention and surgical risk reduction measures in high risk women.

Best Practices for Care of Transgender Patients in Your Busy OB-GYN Office - CS35

Beth Cronin, MD, Women & Infants Hospital/Warren Alpert Medical School of Brown University, Providence, RI

At the end of this course, the participant should be able to:
- Identify 3 ways to improve their office culture to be welcoming and supportive of transgender patient.
- Recommend appropriate health care screening tests for transgender patients.
- Identify resources to aid in prescribing hormonal treatment and discussing surgical options for patients.

To Tell or Not to Tell: Disclosure of Errors - CS36

Patrice M. Weiss, MD, Carilion Clinic, Roanoke, VA

At the end of this course, the participant should be able to:
- List Causes of Unanticipated Outcomes.
- Describe Barriers to Disclosure.
- List the Steps in Disclosure of Medical Errors.
## CLINICAL SEMINARS

### Rooms are located in the Convention Center unless noted otherwise.

#### 10:30 AM - 11:30 AM

<tr>
<td>At the end of this course, the participant should be able to:</td>
<td></td>
</tr>
<tr>
<td>- Describe complications in the lactating woman as well as their prevalence and risk factors.</td>
<td></td>
</tr>
<tr>
<td>- Differentiate between these complications using history, physical exam, imaging and other tools.</td>
<td></td>
</tr>
<tr>
<td>- Understand and implement management strategies for these complications. Review counseling for prevention of recurrence of these complications.</td>
<td></td>
</tr>
<tr>
<td><strong>Gentle Cesarean Delivery - CS40</strong></td>
<td>Room 29CD</td>
</tr>
<tr>
<td>Lawrence Leeman, MD, MPH, <em>University of New Mexico, Maternal Child Health Program, Albuquerque, NM</em></td>
<td></td>
</tr>
<tr>
<td>At the end of this course, the participant should be able to:</td>
<td></td>
</tr>
<tr>
<td>- Understand the components of gentle cesarean including delayed cord clamping, immediate skin to skin, and observing delivery through the incision.</td>
<td></td>
</tr>
<tr>
<td>- Identify which women may be candidates for gentle cesarean and essential procedures to improve patient safety and satisfaction.</td>
<td></td>
</tr>
<tr>
<td>- Describe the roles of the obstetrician, baby nurse, anesthesiologist and pediatrician in the initial gentle cesarean infant care.</td>
<td></td>
</tr>
<tr>
<td><strong>Surgical Miscarriage Management in the Office - You Can Do It! - CS37</strong></td>
<td>Room 29AB</td>
</tr>
<tr>
<td>Christy M. Boraas, MD, MPH, <em>University of Minnesota, Minneapolis, MN</em> Rachel B. Rapkin, MD, MPH, <em>Tampa General Hospital, Tampa, FL</em></td>
<td></td>
</tr>
<tr>
<td>At the end of this course, the participant should be able to:</td>
<td></td>
</tr>
<tr>
<td>- Discuss advantages of providing surgical miscarriage management in the office.</td>
<td></td>
</tr>
<tr>
<td>- Understand safety, efficacy and pain control options for office-based surgical miscarriage management.</td>
<td></td>
</tr>
<tr>
<td>- Review equipment, staffing and billing needs to provide surgical miscarriage management in the office.</td>
<td></td>
</tr>
<tr>
<td><strong>Abortion Care Around the World - CS38</strong></td>
<td>Room 23AB</td>
</tr>
<tr>
<td>Michael L. Stitely, MD, Dunedin School of Medicine, Dunedin, New Zealand Janet Downs, MD, <em>Dunedin, New Zealand</em></td>
<td></td>
</tr>
<tr>
<td>At the end of this course, the participant should be able to:</td>
<td></td>
</tr>
<tr>
<td>- Compare and contrast abortion laws around the world and how access to safe care is affected.</td>
<td></td>
</tr>
<tr>
<td>- Compare funding models for abortion care and how this affects the provision of abortion care.</td>
<td></td>
</tr>
<tr>
<td>- Discuss clinical aspects to abortion care around the world.</td>
<td></td>
</tr>
<tr>
<td><strong>The Role of U.S. Preventive Services Task Force in Women’s Health - CS41</strong></td>
<td>Room 32AB</td>
</tr>
<tr>
<td>Maureen G. Phipps, MD, MPH, <em>Women &amp; Infants Hospital, Providence, RI</em> Francisco A.R Garcia, MD, MPH, <em>University of Arizona, Tucson, AZ</em></td>

<tr>
<td>At the end of this course, the participant should be able to:</td>
<td></td>
</tr>
<tr>
<td>- Provide an overview of the U.S. Preventive Services Task Force (USPSTF).</td>
<td></td>
</tr>
<tr>
<td>- Describe the methods and approach used by the USPSTF to evaluate evidence and make recommendations.</td>
<td></td>
</tr>
<tr>
<td>- Discuss specific recommendations from the USPSTF relevant to women’s health.</td>
<td></td>
</tr>
</tbody>
</table>
**CLINICAL SEMINARS**

Rooms are located in the Convention Center unless noted otherwise.

**P**  
**Pearls and Pitfalls of Genetic Screening—Fictionalized Case Vignette Dramas - CS42**  
Ballroom 20D

Lynn W. Bush, PhD, MA, MS, Columbia University Medical Center, New York, NY

At the end of this course, the participant should be able to:

- Reflect on challenges to professionals and patients when faced with genomic findings of uncertainty in the prenatal genomic setting.
- Improve counseling by clearly articulating the difference between genetic diagnostic tests and screens as well as risk assessment.
- Recognize the implications of contextual variation such as quality of information and tolerance for uncertainty.

**1:00 PM - 2:00 PM**

**FIGO's Response to the Global Challenge of Gestational Diabetes - CS46**  
Room 23AB

Mary E. D’Alton, MD, New York, New York Presbyterian Hospital, New York, NY  
Noelia M. Zork, MD, Columbia University Medical Center, New York, NY

At the end of this course, the participant should be able to:

- Understand the impact of diabetes in pregnancy on maternal and neonatal health.
- Identify the FIGO initiatives undertaken to address diabetes in pregnancy.
- Understand the differences between the 1-step and 2-step methods for diagnosing gestational diabetes.

**Women’s Heart Health: A Unique Opportunity for Obstetricians and Gynecologists to Impact Women’s Health in the New Era of Medicine - CS47**  
Room 32AB

C. Noel Bairey Merz, MD, FACC, FAHA, Cedars-Sinai Medical Center, Los Angeles, CA

At the end of this course, the participant should be able to:

- Review evidence regarding APOs and increased CVD risk.
- Review current status of CVD prevention in women, specifically younger and post-partum APO women.
- Profile strategies and tactics to improve CVD prevention in younger and post-partum APO women.

**Tips on How to Discuss the New Genetic Paradigm with your Patient - CS43**  
Ballroom 20D

Larry Platt, MD, Center for Fetal Medicine & Women's Ultrasound, Los Angeles, CA

At the end of this course, the participant should be able to:

- Discuss first trimester screening options with patients.
- Understand the differences in various universal screening tests.
- Understand the current ACOG guidelines for testing in the first and second trimester.

**Prevention of Surgical Site Infections Following Major Gynecologic Surgery: Presentation of Patient Safety Bundle - CS44**  
Room 29AB

David E. Soper, MD, SC, Charleston, SC

At the end of this course, the participant should be able to:

- List the modifiable risk factors associated with SSI following hysterectomy.
- Incorporate effective interventions proven to reduce SSI following hysterectomy.
- Develop a multidisciplinary team to standardize an approach to SSI prevention at their institution.
### Maternal Mental Health - Perinatal Depression and Anxiety: Presentation of Patient Safety Bundle - CS45

**Room 29CD**

Susan Kendig, JD, WHNP-BC, FAANP, *University of Missouri - St. Louis, St. Louis, MO*

M. Camille Hoffman, MD, MSCS, *University of Colorado, Aurora, CO*

At the end of this course, the participant should be able to:

- Describe the four key components of the Maternal Mental Health: Depression and Anxiety Patient Safety Bundle.
- Identify a minimum of at least two resources regarding screening and interventions with potential for incorporation into their practice.
- Articulate a plan for a tiered response to the patient’s risk assessment and response to interventions.

### Perfecting Your Presentations - CS48

**Room 31ABC**

Roger Smith, MD, *Charles E. Schmidt College of Medicine, Florida Atlantic University, Boca Raton, FL*

At the end of this course, the participant should be able to:

- Discuss the role of needs assessment in the development of a verbal presentation.
- Choose an appropriate style and speaker support materials for a verbal presentation.
- Implement good techniques for creating appropriate visual aids for a presentation.

### 2:15 PM - 3:15 PM

#### The Great Divide - Improving Postpartum Care in General Obstetrics and Closing the 6-week Gap - CS51

**Room 23AB**

Camaryn Chrisman Robbins, MD, *Washington University School of Medicine in St. Louis, St. Louis MO*

At the end of this course, the participant should be able to:

- Increase your patients’ access to postpartum care.
- Succeed in seeing more postpartum patients and being compensated for doing so.
- Improve your patient’s postpartum and long term physical and mental health.

#### Anomalies That Should Not Be Missed by Ultrasound - CS52

**Room 31ABC**

Stephen Chasen, MD, *Weill Cornell Medical College, Cornell University, Ithaca, NY*

At the end of this course, the participant should be able to:

- Describe anomalies that can be detected or excluded in the first and second trimesters.
- Identify first trimester sonographic findings that require early second trimester follow-up.
- Discuss the limitations of first and second trimester fetal anatomic assessment.

#### Surgical Site Protection: Are You Doing All You Can Do? - CS49

**Room 29CD**

Eric A. Strand, MD, *Washington University School of Medicine in St. Louis, St. Louis, MO*

At the end of this course, the participant should be able to:

- Outline the common factors associated with increased rates of surgical site infections.
- Describe intra-operative interventions that may decrease the incidence of SSIs.
- Create a SSI prevention bundle based on currently available evidence.
Genital HSV Infections – Knowledge Is Power – What You Don’t Know CAN Hurt You - CS50

David L. Gandell, MD, University of Rochester, Rochester, NY

At the end of this course, the participant should be able to:

- Discuss the high incidence and prevalence of genital herpes and reasons why the disease is underdiagnosed and often unrecognized.
- Know how/why to differentiate between primary and recurrent genital herpes, including Type 1 and Type 2 HSV, and why it matters.
- Prescribe medication to treat symptoms, reduce recurrences and decrease the likelihood of transmission to uninfected partners, and counsel patients on how to accept the diagnosis.

Transfer From Planned Home Birth to Hospital: Improving Interprofessional Collaboration and Patient Safety Through the Use of Best Practice Guidelines - CS53

Lawrence Leeman, MD, MPH, University of New Mexico, Maternal Child Health Program, Albuquerque, NM

At the end of this course, the participant should be able to:

- Discuss the differences between integrated maternity care systems that include all birth settings and the current US system.
- Describe the Best Practice Transfer Guidelines and successful models for transfer and collaboration.
- Understand issues with home to hospital transfer and prenatal consultations that affect patient safety.

Art Therapy – for Patients and Providers: A Hands on Workshop - CS54

Jeffrey M. Rothenberg, MD, MS, Indiana University School of Medicine, Indianapolis, IN
Joani Rothenberg, MA-ATR, Indianapolis, IN

At the end of this course, the participant should be able to:

- Identify and discuss how the arts and humanities can be a powerful addition to healing.
- Observe, model several practical programs that can easily be initiated in clinical practice.
- Develop an appreciation of other uses that arts and humanities can bring to our own practices.

Late-breaking Zika Update - CS80

Karen Harris, MD, MPH, Gainesville, FL

At the end of this course, the participant should be able to:

- Understand the effects of the Zika Virus on pregnant women and the definition of congenital Zika Syndrome.
- Understand the methods and strategies to prevent Zika infection in pregnant women.
- Understand the current testing algorithms for Zika Virus infection.

3:30 PM - 4:30 PM

Nausea and Vomiting of Pregnancy - CS57

Jennifer R. Niebyl, MD, University of Iowa Hospital, Iowa City, IA

At the end of this course, the participant should be able to:

- Describe the characteristics of the fundamental stimulus of nausea and vomiting of pregnancy.
- Describe the indications, benefits, and risks of pharmacologic therapy for NVP.
- Describe complementary and alternative therapies, e.g. ginger, for NVP.

| 31ABC| Intrapartum Management of the Second Twin: A Hands on Approach - CS58       | Clark T. Johnson, MD, MPH, *John Hopkins Hospital*, Baltimore, MD          | Room 31ABC | At the end of this course, the participant should be able to:  
• Describe the potential maternal and neonatal morbidities associated with delivery in twin pregnancies and how these may differ by mode of delivery.  
• Determine when vaginal delivery is appropriate and demonstrate the techniques/maneuvers involved in facilitating delivery of the second twin.  
• Thoroughly counsel patients on the benefits and risks of both cesarean and vaginal delivery in order to provide appropriate delivery recommendations. |
| 29AB | The Connie and Harry Jonas, MD Clinical Seminar: Induction of Labor - CS59 | David B. Nelson, MD, *MedStar Health*, Washington, DC                       | Room 29AB | At the end of this course, the participant should be able to:  
• Review indications for induction – (mis)application of the 39 week rule.  
• Describe medical therapies used for induction.  
• Review mechanical techniques of induction. |
| 29CD | The Vaginal Pessary - CS56                                                   | Maria Teresa Tam, MD, *Presence St. Francis Hospital*, Evanston, IL         | Room 29CD | At the end of this course, the participant should be able to:  
• Identify indications and contraindications for pessary use.  
• Describe types of vaginal pessaries commonly available and their clinical applications.  
• Understand pessary fitting trial and follow-up care. |
| 31ABC| New Pap Test and Management Guidelines - CS55                               | Alan G. Waxman, MD, MPH, *University of New Mexico School of Medicine*, Albuquerque, NM | Room 31ABC | At the end of this course, the participant should be able to:  
• Discuss the use of HPV testing in cervical cancer screening and the management of women with abnormal screening tests.  
• Outline the role of HPV genotyping in the management of women who are Pap negative but HPV positive.  
• Review the difference in management of the ASC-US Pap in women under 25 and those over 25 years of age and the rationale for this difference. |
| 32AB | Longterm Healthcare Effects of Intimate Partner Violence - CS60             | Jane Smith Dimer, MD, *University of Washington*, Seattle, WA               | Room 32AB | At the end of this course, the participant should be able to:  
• Interview and facilitate counseling of their patients who have experienced intimate partner violence.  
• Reduce the immediate legal and interpersonal risks in patients who have been identified as victims of domestic violence in the obgyn’s office.  
• Learn about the real economic impact intimate partner violence. |
1:00 PM - 2:00 PM

**Pregnancy as a Window of Opportunity to Optimize Maternal Health and Prevent Childhood Obesity: New Strategies and Approaches - CS64**

Stephanie E. Mann, MD, University of Vermont, Burlington, VT

At the end of this course, the participant should be able to:

* Understand which maternal behavioral interventions can impact development of neonatal obesity.
* Understand which prenatal pharmacologic interventions have the potential to reduce early childhood obesity.

**Abnormal Placentation: Strategies for Prevention, Diagnosis, Management - CS65**

Kimberly B. Fortner, MD, University of Tennessee Medical Center, Knoxville, TN
Larry C. Kilgore, MD, University of Tennessee Medical Center, Knoxville, TN

At the end of this course, the participant should be able to:

* Examine predisposing factors and radiographic findings associated with abnormal placentation.
* Discuss antenatal and intrapartum management of delivery in setting of suspected abnormal placentation.
* Reduce risks for maternal morbidity and mortality due to hemorrhage in association with delivery of morbidly adherent placenta.

**Management of Adnexal Masses in Adolescents: Standards and Controversies - CS63**

Xiomara M. Santos, MD, Orlando, FL

At the end of this course, the participant should be able to:

* Formulate differential diagnosis of an adnexal mass in an adolescent.
* Determine appropriate evaluation and management of an adnexal mass in an adolescent.
* Discuss management of complex presentation of an adnexal mass in an adolescent.

**Simplifying the Approach to Diagnosing and Treating Sexual Dysfunction in a Busy Outpatient Practice - CS61**

Marsha K. Guess, MD, MS, University of Colorado, Aurora, CO

At the end of this course, the participant should be able to:

* Diagnose and classify female sexual dysfunction.
* Understand the rationale for treatment options for FSD based on evidence based medicine.
* Discuss when, for whom and how to obtain multidisciplinary referrals for women with FSD.

**LARC in 2017: Getting the Most from Intrauterine Devices and Implants - CS62**

Rameet Singh, MD MPH, NM, University of New Mexico, Albuquerque, NM

At the end of this course, the participant should be able to:

* Describe strategies and techniques for optimizing IUD insertion.
* Describe strategies to manage non-fundal or “malpositioned” IUDs.
* Understand and manage the side-effects of implants.
Practical Patient Safety: Best Practice, Future Trends - CS66
Paul Alvin Gluck, MD, FL
P. James Ruiter, MD, Salus Global-Safety Performance Solutions, Ontario, Canada
At the end of this course, the participant should be able to:
• Develop strategies to reduce errors and prevent patient harm.
• Understand and apply the characteristics of high reliability organization.
• Make processes more reliable (production safety) by modifying existing tools.

Human Immunodeficiency Virus Infection During Pregnancy: What the Specialist in Obstetrics Should Know - CS67
Luis M. Gomez, MD, TN
At the end of this course, the participant should be able to:
• Become familiar with 4th generation HIV testing recommendations.
• Become familiar with new antiretroviral combinations to choose according to the HIV status.
• Become comfortable with antepartum and intrapartum management.

Medical Management of Spontaneous and Elective Abortion - CS68
Sarah Ward Prager, MD, University Of Washington, Seattle, WA
At the end of this course, the participant should be able to:
• Understand the epidemiology of elective and spontaneous abortion.
• Select patients appropriately for medication management of elective and spontaneous abortion.
• Discuss complications to medication abortion and how to prevent and manage them.

Strategies to Reduce Disparities in Maternal Morbidity - CS70
Judette M. Louis, MD, MPH, University of South Florida, Tampa, FL
Sindhu K. Srinivas, MD, MSCE, University of Pennsylvania, Philadelphia, PA
At the end of this course, the participant should be able to:
• Describe the clinical and societal burden of racial/ethnic disparities in obstetrics.
• Apply evidence-based strategies for the reduction of disparities.
• Select appropriate therapeutic agents for the postpartum management of medically complicated pregnancies.

Endometriosis: Where are We Now? - CS69
Teresa M. Walsh, MD, UT Southwestern Medical Center, Dallas TX
Erica F. Robinson, MD, New Haven, CT
At the end of this course, the participant should be able to:
• Review the pathophysiology, characterization, and current research in endometriosis.
• How to evaluate and manage a patient with suspected endometriosis, and review operative options.
• Review postoperative and long-term management concerns for endometriosis patients.

<tr>
<td><strong>Chronic/Recurrent Vaginitis: New Research and Treatment Plans That Work - CS74</strong></td>
<td>Room 29AB</td>
</tr>
<tr>
<td>Chemen Mzima Neal, MD, Indiana University, Bloomington, IN</td>
<td>At the end of this course, the participant should be able to:</td>
</tr>
<tr>
<td></td>
<td>• Describe an updated understanding of chronic bacterial and fungal vaginitis.</td>
</tr>
<tr>
<td></td>
<td>• Properly diagnose and treat atypical cases of acute and chronic vaginitis.</td>
</tr>
<tr>
<td></td>
<td>• Employ effective treatment strategies for chronic or recurrent vulvovaginitis.</td>
</tr>
</tbody>
</table>
Vulvovaginal Disease: From Accurate Diagnosis to Evidence Based Treatment - CS76
Gary Ventolini, MD, FAAFP, Texas Tech University, Odessa, TX
Sheela M. Barhan, MD, Wright State University, Dayton, OH
At the end of this course, the participant should be able to:
• Discuss vaginal micro-flora physiology, vaginal immunity and biofilms.
• Differentiate vulvar dystrophies, common and challenging vulvar dermatosis and vulvar pain.
• Review new discoveries and uncover controversies and treatment of recurrent bacterial vaginosis.

Later Termination of Pregnancy: Improving Services, Resources, and Referrals - CS77
Maureen Paul, MD, MPH, Beth Israel Deaconess Medical Center, Boston, MA
Mary E. Norton, MD, University of California, San Francisco, CA
At the end of this course, the participant should be able to:
• Describe key barriers that women face when attempting to access later abortions services.
• Discuss guidelines for decision-making in pregnancies with serious fetal or maternal conditions.
• List helpful referral resources for patients who need later pregnancy terminations.

Sex, Let’s Get It Right: Difficult Cases and Discussions - CS78
Brett L. Worly, MD, Ohio State University, Columbus, OH
Maria Manriquez, MD, University of Arizona, Phoenix, AZ
At the end of this course, the participant should be able to:
• Understand the prevalence and incidence of sexual problems for women in the United States, while identifying higher risk populations in the office.
• Recognize challenges to discussing sexual problems with patients in the office and identify viable solutions to readily address patient needs.
• Attain competency in diagnosis, management, and referral of female sexual problems. Special populations not addressed in training will be highlighted.
10:15 AM - 11:15 AM

**The Changing Landscape of Abortion Regulations and Services: What Obstetrician-Gynecologists Need to Know - FL01**

Maureen Paul, MD, MPH, *Beth Israel Deaconess Medical Center, Boston, MA*
Talcott Camp, JD, *Reproductive Health Freedom Project American Civil Liberties Union, New York, NY*

At the end of this course, the participant should be able to:

- Describe key barriers that women face when attempting to access abortion services.
- Summarize major federal and state laws and regulations that govern abortion practice.
- List resources for accurate and timely abortion referrals for patients.

1:00 PM - 2:00 PM

**Shoulder Dystocia: How to Take the Fear Out of Management - FL02**

Ronald T. Burkman, MD, *UMMS-Baystate, Springfield, MA*

At the end of this course, the participant should be able to:

- Describe the major risk factors for shoulder dystocia and neonatal brachial plexus palsy.
- Conduct the major release maneuvers in a more effective fashion.
- Describe the key components of a note following a shoulder dystocia.

2:15 PM - 3:15 PM

**Smart Phones, Tablets, and Phablets: Delivering Apps for the OB/GYN - FL03**

Katherine Chen, MD, MPH, *Mount Sinai, New York, NY*

At the end of this course, the participant should be able to:

- Discuss the rationale for Ob-Gyns to use technology.
- Explore the role of handheld devices to increase work productivity.
- Use recommended apps to enhance patient care.

3:30 PM - 4:30 PM

**Contraception and Coercion - FL04**

Brenda Pereda, MD, MS, *University of New Mexico, Albuquerque, NM*
Neha Bhardwaj, MD MS – *Icahn School of Medicine at Mount Sinai, New York, NY*

At the end of this course, the participant should be able to:

- Discuss goals of contraception.
- History of forced sterilization.
- Current sterilization controversies.
- The purpose and place for LARC.
- Interpersonal violence and conscientious objection.

|              | At the end of this course, the participant should be able to:                                                                             |                    |
|              | • Define multimodal analgesic therapy.                                                                                                   |                    |
|              | • Prescribe preemptive analgesic regimens.                                                                                               |                    |
|              | • Order local anesthetics for postoperative pain management.                                                                             |                    |
| **2:15 PM - 3:15 PM** | **Breast and Gynecologic Cancer Genetics: Moving Beyond the BRCA Mutations: What Every Ob-Gyn Should Know in 2017 - FLO8**         | Ballroom 31ABC     |
|              | Ashley Stuckey, MD, Women's Oncology at Women & Infants Hospital, Providence, RI  
Jennifer Scalia Wilbur, MS, Women's Oncology at Women & Infants Hospital, Providence, RI |                    |
|              | At the end of this course, the participant should be able to:                                                                             |                    |
|              | • Identify patients at risk for an inherited cancer syndrome in your ob/gyn practice.                                                      |                    |
|              | • Describe novel cancer genes and comprehensive genetic panel testing.                                                                  |                    |
|              | • Define prophylactic options for women with inherited gene mutations.                                                                 |                    |
3:30 PM - 4:30 PM

An Effective Contemporary Approach to Clinical Female Sexual Medicine - FL09

Debra S. Wickman, MD, Phoenix, AZ

At the end of this course, the participant should be able to:
• Identify specific lifetime milestones when a woman is more vulnerable to sexual dysfunction and effective interventions for each.
• Explain the main elements of a comprehensive program to address the treatment of female sexual dysfunction.
• Discuss the importance of incorporating a holistic approach to female sexual dysfunction, and how the brain can provide the most effective treatment.

1:00 PM - 2:00 PM

The Difficult Intrauterine Device Insertion: Tips and Techniques - FL10

Sigrid B. Tristan, MD, University of Texas at Austin Dell Med School, Austin, TX
Amna I. Dermish, MD, Austin, TX

At the end of this course, the participant should be able to:
• Understand the changing demographics of IUD users and current safety recommendations for nulliparous and adolescent women.
• Describe the management of potential challenges and complications that may arise during IUD insertion.
• Discuss the evidence behind use of adjunctive measures to assist IUD insertion.

2:15 PM - 3:15 PM

Changing the Landscape of Perinatal Depression: a Population Health Program for Ob-Gyns - FL11

Tiffany A. Moore Simas, MD, MPH, Med, University of Massachusetts Medical School, Worcester, MA

At the end of this course, the participant should be able to:
• Communicate the prevalence and impact of perinatal depression.
• Outline a multi-faceted evidence-based sustainable approach to perinatal depression management.
• Understand advocacy opportunities for population-based perinatal depression management programs.

3:30 PM - 4:30 PM

Coming Full Circle: What To Do About Thrombophilias During Pregnancy - FL12

David E. Abel, MD, Portland, OR

At the end of this course, the participant should be able to:
• Appreciate the lack of data regarding the relationship between inherited thrombophilias and adverse perinatal outcomes.
• Differentiate a low-risk from a high-risk thrombophilia.
• Identify which patients are candidates for anticoagulation during pregnancy.
11:30 AM - 12:45 PM

Adolescent Pregnancy Prevention - LS02

Melisa Holmes, MD, Grilology, Greensville, SC

At the end of this course, the participant should be able to:

- Discuss important trends in teen sexual behaviors and teen pregnancy in the U.S.
- Provide evidence-based discussions on the roles of abstinence, sexuality education, and contraceptive access in preventing teen pregnancy.
- Implement teen-friendly strategies for providing care & counseling to prevent unintended teen pregnancy.

Exercise in Pregnancy: Counseling your Patients - LS03

Linda M. Szymanski, MD, PhD, Johns Hopkins Medicine, Baltimore, MD

At the end of this course, the participant should be able to:

- Enumerate the potential benefits of physical activity for pregnant women and discuss the supporting evidence.
- Provide pregnant patients of varying physical activity levels with individualized exercise recommendations based on review of current evidence.
- Translate the available evidence on exercise during pregnancy into practical information for patients.

Laparoscopic Pearls - LS01

James Fanning, DO, Michiana Hematology Oncology, Mishawaka, IN

At the end of this course, the participant should be able to:

- Discuss entry technique, location, and port positioning.
- Resection of adenexal masses.
- Treatment of port site bleeding.

Contemporary Cervical Cancer Screening and Management of Abnormal Cytology and HPV Results - LS04

Alan G. Waxman, MD, MPH, University of New Mexico School of Medicine, Albuquerque, NM

At the end of this course, the participant should be able to:

- Outline the rationale, benefits and limits of adding HPV testing to cervical cancer screening, both as cotesting and alone as primary HPV testing.
- Discuss the use of HPV genotyping in cervical cancer screening.
- Navigate the ASCCP management guidelines for women with abnormal Pap tests and biopsy results.

Is There a Shortage of Ob-Gyns? - LS05

William F. Rayburn, MD, MBA, University of New Mexico School of Medicine Continuing Medical Education & Professional Development, Albuquerque, NM

At the end of this course, the participant should be able to:

- Describe issues relating to the present ob-gyn workforce supply.
- List changes in demands and practices of women's health care.
- Articulate changes that will affect emerging care delivery.
### LUNCH SEMINARS

Rooms are located in the Convention Center unless noted otherwise.

#### 11:30 AM - 12:45 PM

**Signature Wall**

**Support the College Development Fund!**

For every signature on the Allergan Signature Wall (Booth 1215), the Development Fund will receive a $10 donation.
### 1:00 PM - 2:30 PM

**Techniques in Hysteroscopic Surgery: Operative Hysteroscopy - ST02**  
Linda D. Bradley, MD, *Cleveland Clinic, Cleveland, OH*

At the end of this course, the participant should be able to:
- Improve operative hysteroscopic outcomes and decrease surgical misadventures.
- Understand pros and cons of hysteroscopic techniques that will include traditional hysteroscopic resectoscopy, and tissue retrieval systems.
- Identify surgical techniques to increase complete removal of Type 0 and Type 1 leiomyomas, endometrial polyps, and foreign bodies.

### 2:30 PM - 4:00 PM

**Techniques in Abnormal Wound Closure (including the obese patient) - ST01**  
Joel Sorosky, MD, *Abington Memorial Hospital, Abington, PA*

At the end of this course, the participant should be able to:
- Describe the surgical anatomy of the abdominal wall.
- Demonstrate surgical techniques for opening and closing the abdomen.
- Describe surgical techniques useful in the obese and morbidly obese patient including panniculectomy.

---

### 1:00 PM - 2:30 PM

**MRI-Based Pelvic Anatomy - ST03**  
Lennox P Hoyte, MD, MSECS, *University of South Florida, Tampa, FL*

At the end of this course, the participant should be able to:
- Understand the application of MRI-based 3D reconstruction in understanding female pelvic anatomy.
- Understand of 3D anatomy to determine the pros and cons of different surgical approaches to prolapse repair.

### 2:30 PM - 4:00 PM

**Optimizing Robotics and Conventional Laparoscopy in Minimally Invasive Surgery - ST04**  
Arnold P Advincula, MD, *Sloane Hospital for Women at New York Presbyterian/Columbia University Medical Center, New York, NY*

At the end of this course, the participant should be able to:
- Formulate safe and efficient approaches to advanced endoscopic procedures that incorporate either robot-assisted or conventional laparoscopy.
- Identify the differences among the various electrosurgical devices and energy sources available.
- Demonstrate various laparoscopic suturing and dissection techniques including robotics and how to successfully incorporate these skills into minimally invasive gynecologic procedures.
SUBSPECIALTY SESSIONS

Rooms are located in the Convention Center unless noted otherwise.

1:00 PM - 4:00 PM

**Society of Family Planning (SFP) - 1SUBSFP**

Eve Espey, MD, MPH, *University of New Mexico, Albuquerque, NM*
Susan Higginbotham, *Pennsylvania, PA*
Nikki B. Zite, MD, MPH, *University of Tennessee, Knoxville, TN*

At the end of this course, the participant should be able to:
- ACOG members will learn the reasons that SFP members have chosen to concentrate their careers in Family Planning.
- Attendees will be introduced to the various paths to become an expert in family planning.
- Participants will be given several examples of career opportunity in family planning.

**Society of Gynecologic Oncology (SGO) - 2SUBSGO**

Linda Duska, MD, MPH, *University of Virginia, Charlottesville, VA*
Angeles A. Secord, MD, *Chapel Hill, NC*
Marcela Del Carmen, MD, MPH, *Massachusetts General Hospital, Boston, MA*
Steven C. Plaxe, MD, *Moores UCSD Cancer Center, La Jolla, CA*
David M. Kushner, MD, *Madison, WI*

At the end of this course, the participant should be able to:
- Understand and manage sexual and overall health in gynecologic cancer survivors.
- Understand and manage menopausal symptoms in gynecologic cancer survivors.
- Describe appropriate surveillance by the non-specialist gynecologist in gynecologic cancer survivors.

**Society of Ob-Gyn Hospitalists (SOGH) - 3SUBSOGH**

Brigid K. McCue, MD, *Hanover, MA*
Catherine S. Stika, MD, *Winnetka, IL*
Tanner L. Colegrove, MD, *Northwestern Lake Forest Hospital, Lake Forest, IL*

At the end of this course, the participant should be able to:
- Describe why Core Competences should be established for OB/GYN Hospitalists and understand the methods that will be utilized by SOGH to develop them.
- Understand use of the OB ED to minimize preventable obstetric medical malpractice.
- Analyze the responses: Who are we? Where do we work? Why did we become a Hospitalist? What do we do? Do we like our new field?

8:00 AM - 11:00 AM

**American Association of Gynecologic Laparoscopists (AAGL) - 4SUBAAGL**

**Minimally Invasive Approaches to Complex Gynecologic Procedures**

Pamela Soliman, MD, MPH, *Houston, TX*
Michael Frumovitz, MD, MPH, *Houston, TX*
Ted Lee, MD, *University of Pittsburgh Medical Center, Pittsburgh, PA*

At the end of this course, the participant should be able to:
- Identify key anatomic structures within the pelvic retroperitoneum.
- Determine the best strategy for avoiding a chance encounter with a gynecologic malignancy.
- Identify potential complications and how to manage them.
### SUBSPECIALTY SESSIONS

Rooms are located in the Convention Center unless noted otherwise.

<table>
<thead>
<tr>
<th>Session Title</th>
<th>Room</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>American Society for Reproductive Medicine (ASRM) - 5SUBASRM</strong></td>
<td>Room 33C</td>
</tr>
</tbody>
</table>
| Richard J. Paulson, MD, *USC, Los Angeles, CA*  
Owen K. Davis, MD, *Cornell, New York, NY*  
Rebecca Z. Sokol, MD, MPH, *USC, Los Angeles, CA*  

At the end of this course, the participant should be able to:  
- Describe the female biological clock, and how fertility preservation may circumvent a critical part of female reproductive aging.  
- Describe male reproductive aging, how male fertility changes and how hormones change with age.  
- Counsel patients about “how old is too old” for female fertility and/or pregnancy. |
| **The Society for Academic Specialists in Obstetrics and Gynecology (SASGOG) - 6SUBSASGOG** | Room 33A |
| Tony Ogburn, MD, *University of Texas Rio Grande Valley, Harlingen, TX*  
Mostafa Borahay, MD, PhD, *Johns Hopkins University School of Medicine, Baltimore, MD*  
Lee A. Learman, MD, PhD, *Charles E. Schmidt College of Medicine, Florida Atlantic University, Boca Raton, FL*  
William M. Leininger, MD, *Escondido, CA*  
Janet Jacobson, MD, *Orange, CA*  
Andrea Joyner, MD, *Emory University School of Medicine, Atlanta, GA*  
Lisa R. Bystry, MD, *Cheshire, CT*  
Jessica H. Mullins, MD, *Farmington, CT*  
Holly A. Gibbs, *San Francisco, CA*  
James R. Scott, MD, *University of Utah SOM, Salt Lake City, UT*  
Gokhan Kilic, MD, *Houston, TX*  

At the end of this course, the participant should be able to:  
- Identify patients who are victims of human trafficking.  
- Describe approaches to the evaluation and management of pelvic pain.  
- List effective methods to support breastfeeding. |
| **1:00 PM - 4:00 PM** | |
| **American Urogynecologic Society (AUGS) - 7SUBAUGS** | Room 33A |
| Rebecca Rogers, MD, *Dell Medical School, Austin, TX*  
John O. DeLancey, MD, *University of Michigan Health, Ann Arbor, MI*  
Marlene M. Corton, MD, UT *Southwestern, Dallas, TX*  

At the end of this course, the participant should be able to:  
- Describe the identification, repair and follow-up of pelvic floor obstetrical trauma.  
- Describe and discuss how to avoid common neurologic injuries following gynecologic surgery.  
- Describe how to optimize native tissue repairs for prolapse. |
| **Society for Maternal-Fetal Medicine (SMFM) - 8SUBSMFM** | Room 33B |
| Alfred Z Abuhamad, MD, *Eastern Virginia Medical School, Norfolk, VA*  
Mary E. Norton, MD, *University of California San Francisco, CA*  
George Saade, MD, UTMB, *Galveston, TX*  

At the end of this course, the participant should be able to:  
- Describe up-to-date topics impacting specialists in ob-gyn.  
- Discuss Society for Maternal-Fetal Medicine (SMFM) initiatives. |
Society of Gynecologic Surgeons (SGS) - 9SUBSGS
Room 33C

Michael D. Moen, MD, Lisle, IL
Rosanne Kho, MD, New York, NY
Rajiv B. Gala, MD, Ochsner Medical Center, Jefferson, LA
Cara King, DO, MS, University of Wisconsin Hospital, Madison, WI

At the end of this course, the participant should be able to:
• Discuss and implement tips and tricks for vaginal hysterectomy.
• Understand and implement techniques for managing difficult pelvic anatomy and laparoscopic challenges in obese women.
• Understand and implement approaches to expedite discharge and recovery after gynecologic surgery.

1:00 PM - 4:00 PM
North American Society for Pediatric and Adolescent Gynecology (NASPAG) – What is New in Pediatric and Adolescent Gynecology? - 10SUBNASPAG
Room 33A

Paula J Adams Hillard, MD, CA, Stanford University School of Medicine, Stanford, CA
Eduardo Lara-Torre, MD, Roanoke, VA
Mary E. Romano, MD, MPH, Vanberbilt, Nashville, TN
Nichole Tyson, MD, Kaiser Permanente, Roseville, CA

At the end of this course, the participant should be able to:
• Describe up-to-date topics impacting specialists in ob-gyn.
• Discuss North American Society for Pediatric and Adolescent Gynecology (NASPAG) initiatives.

North American Society for Psychosocial Obstetrics and Gynecology (NASPOG) - 11SUBNASPOG
Room 33B

Shari I. Lusskin, MD, New York, NY
C. Neill Epperson, MD, University of Pennsylvania, Philadelphia, PA
Jonathan A. Schaffir, MD, Ohio State University Department of Ob/Gyn, Columbus, OH

At the end of this course, the participant should be able to:
• Identify cognitive and mood changes associated with the menopausal transition.
• Discuss evidence for cognitive or memory deficits associated with pregnancy.
• Reduce provider anxiety regarding the use of psychopharmacology in pregnancy by improving the ability to use evidence-based medicine.

2:00 PM - 5:00 PM

Applying the ACOG Hypertension in Pregnancy Task Force Guidelines for Practicing Ob-Gyns and MFMs - PG303
Room 33C

James N. Martin, MD, University of Mississippi Medical Center, Jackson, MS
John Barton, MD, Baptist Health Lexington, Lexington, KY
Donna D. Johnson, MD, MUSC Health Charleston, SC

At the end of this course, the participant should be able to:

• List the new ACOG diagnostic criteria for the various hypertensive disorders of pregnancy.
• Apply the new ACOG guidelines to the management of patients with hypertensive disorders of pregnancy.
• Exercise this new expanded knowledge to choose the correct answers to challenging case presentations.

The Original Minimally Invasive Hysterectomy: How to do a Vaginal Hysterectomy? - PG302
Room 30A

Emanuel C. Trabuco, MD, Mayo Clinic, Minneapolis, MN
John A. Occhino, MD, MS, Mayo Clinic, Minneapolis, MN

At the end of this course, the participant should be able to:

• Become proficient with the key steps to safely perform a vaginal hysterectomy and how to overcome challenging cases.
• Become proficient with the steps and benefits of prophylactic apical suspension during vaginal hysterectomy.
• Become proficient with techniques for vaginal adnexa removal and define risk and benefits of ovarian preservation in low risk patients.

5 Minute Updates for the Busy Ob-Gyn - PG301
Room 30D

Erin Keyser, MD, San Antonio Military Medical Center, United States Army, San Antonio, TX
Nancy C. Chescheir, MD, Chapel Hill, NC
Michael T. McHale, MD, UC San Diego Health, La Jolla, CA
Laurie J. McKenzie, MD, Atlanta, GA
Deborah L. Myers, MD, Women’s & Infant Hospital, Providence, RI

At the end of this course, the participant should be able to:

• Describe the latest recommendations for antenatal steroid and non-invasive genetic testing.
• Conduct an efficient, cost effective evaluation for infertility that can be managed by the OB/GYN.
• Differentiate between common GYN complaints that are best managed by a GYN Oncologist.

9:00 AM - 12:00 PM

Update in Critical Care Medicine Relevant for the Generalist in Ob-Gyn Practice: What and Why you need to Know! - PG304
Room 30A

Carolyn M. Zelop, MD, The Valley Hospital/NYU School of Medicine, New York, NY
Charles J. Lockwood, MD, MHCM, University of South Florida, Tampa, FL

At the end of this course, the participant should be able to:

• Implement an algorithm for the diagnosis and treatment of venous thromboembolism during pregnancy.
• Appreciate the physiologic changes of pregnancy that impact cardiopulmonary arrest and venous thromb.
• Examine the role of cesarean delivery as a component of resuscitation during CPR in pregnancy.
### 3 Hour Postgraduate Courses

Rooms are located in the Convention Center unless noted otherwise.

| **Prevention, Recognition, and Management of Complications from Gynecologic Surgery - PG308** | Room 30D |
| Howard T. Sharp, MD, *University of Utah Health Science Center, Salt Lake City, UT* |        |
| Mark K. Dodson, MD, *University Of Utah, Salt Lake City, UT* |        |
| At the end of this course, the participant should be able to:                |        |
| • Outline strategies to minimize the risk of surgical complications.         |        |
| • Describe presenting symptoms associated with post operative complications. |        |
| • Detail therapeutic options to optimally manage surgical complications.     |        |

| **Colposcopy Update 2017: New Guidelines for Screening, Terminology, and Management - PG309** | Room 30C |
| Alan G. Waxman, MD, MPH, *University of New Mexico School of Medicine, Albuquerque, NM* |        |
| Lisa Flowers, MD, *Emory University School of Medicine, Atlanta, GA* |        |
| At the end of this course, the participant should be able to:                |        |
| • Discuss the current ACOG cervical cancer screening guidelines and the rationale for adding HPV testing, both in co-testing and as primary HPV testing. |        |
| • Discuss the rationale for the ASCCP Guidelines for managing women with abnormal Pap tests and biopsy results. |        |
| • Outline the new ASCCP Standards for the practice of Colposcopy. |        |
9:00 AM - 4:30 PM

**Best Practice in High Risk Pregnancy - PG601**  
Room 30B

Lynn L. Simpson, MD, *Columbia Presbyterian Medical Center, New York, NY*
Mary E. D’Alton, MD, *Columbia Presbyterian Medical Center, New York, NY*
Catherine Y. Spong, MD, *National Institutes of Health, Bethesda, MD*

At the end of this course, the participant should be able to:

- Understand the practical implications of randomized clinical trials that have changed obstetric practice.
- Describe the management of pregnant patients exposed to or infected with the Zika virus.
- Be familiar with fetal electronic monitoring and the concept of credentialing.

**Advancements in Vulvar and Vaginal Disease - PG602**  
Room 30E

Hope K Haefner, MD, *University of Michigan Hospital, Ann Arbor, MI*
Libby Edwards, MD, *Waxhaw, NC*
Colleen Stockdale, MD, MS, *University of Iowa, West Burlington, IA*

At the end of this course, the participant should be able to:

- Identify the clinical features of various vulvovaginal conditions.
- Advance knowledge on common and puzzling vulvovaginal conditions.
- Discuss a variety of treatments for skin diseases.

**Mini MBA for Physicians - PG603**  
Room 33C

Stuart Hart, MD, *University of South Florida, Tampa, FL*
David S. Kim, MD, PhD, MBA, *Los Angeles, CA*
Joseph Sanfilippo, MD, *Magee Women’s Hospital, Pittsburgh, PA*

At the end of this course, the participant should be able to:

- Develop a broad understanding of the U.S. Healthcare system and the changing landscape around reimbursement and quality measures.
- Apply complex business and legal principles pertinent to healthcare situations commonly impacting a physician’s practice and career.
- Discuss factors necessary for the entrepreneurial physician to succeed in developing a new idea or venture
3 HOUR HANDS-ON COURSES

2:00 PM - 5:00 PM

Vacuum/Forceps: Fine Tuning Your Operative Vaginal Delivery Skills - HO301

Ross W. McQuivey, MD, Clinical Innovations, Murray, UT
John D. Buek, MD, MedStar, Washington, DC
Michael D. Moxley, MD, Virginia Hospital Center, Charlottesville, VA

At the end of this course, the participant should be able to:
• Describe the principles of safe vacuum and forceps assisted vaginal deliveries.
• Demonstrate proficiency of the essential steps of vacuum and forceps deliveries on a pelvic model.
• Describe how to improve patient safety with communication, mutual respect and proper documentation.

Removal of Large Volume Specimens Laparoscopically - HO302

Tri Dinh, MD, Mayo Clinic, Jacksonville, FL
Anita H. Chen, MD, Jacksonville, FL
Christopher DeStephano, MD, MPH, Jacksonville, FL
Paulami Guha, MD, Jacksonville, FL
Paul D. Pettit, MD, Jacksonville, FL

At the end of this course, the participant should be able to:
• Identify the patient at higher risk for a malignancy of the ovary or uterus during the preoperative evaluation.
• Surgically manage a patient with an adnexal mass along oncologic principles, decreasing the risk of contamination of potentially malignant tissues.
• Identify patients at low risk for a uterine malignancy and perform contained morcellation of uterine tissue after hysterectomy or myomectomy.
### Basic Obstetric Ultrasound - HO601

Room 8 Lecture / Room 6F Lab

Joan M. Mastrobattista, MD, Baylor College of Medicine, Houston, TX  
Henry L. Galan, MD, University of Colorado, Aurora, CO  
Kathi K. Minton, MD, Laurel, MD  
Shifa Turan, MD, Lutherville, MD  
Michael V. Zaretsky, MD, Aurora, CO

Laboratory Faculty: Nasrin Benion, Jane J. Burns, AS, RT, RDMS, Angela M. Glaser

At the end of this course, the participant should be able to:

- Demonstrate an understanding of tools and tricks for image optimization & machine controls.  
- Describe fetal biometry, placental location, and a systematic approach to cervical length evaluation.  
- Discuss imaging parameters for basic fetal anatomy & common antepartum testing & Doppler strategies.

### Emergencies in Clinical Obstetrics (ECO) - HO602

Room 10 Lecture / Room 11AB Lab

Shad Deering, MD, Uniformed Services University of Health Sciences, Bethesda, MD  
Tamika C. Auguste, MD, MedStar, Washington, DC  
Kormal Bajaj, MD, MS-HPEd, Bronx, NY  
Thomas J. Benedetti, MD, MHA, University of Washington, Seattle, WA  
Etoi Garrison, MD, Ph.D, Vanderbilt University, Nashville, TN  
Dena Goffman, MD, Columbia University Medical Center, New York, NY  
Brook A. Thompson, MD, San Antonio, TX

Proctors: Lisa M. Foglia, MD, Jason O. Heaton, MD, Kimberly Hickey, MD, Mary Jo Kinsella, DO, William M. Leininger, MD, Monica A. Lutgendorf, MD, Kristina V. Morocco, MD, Barton Staat, MD

At the end of this course, the participant should be able to:

- Review evidence-based protocols for common obstetric emergencies.  
- Demonstrate correct technique and performance of key responsibilities during simulated emergencies.  
- Participants will practice for shoulder dystocia, breech delivery, hemorrhage and emergency cesarean.

### Advancing your Skills in Operative and Office Hysteroscopy - HO603

Room 7B Lecture / Room 6E Lab

Andrew I Brill, MD, California Pacific Medical Center, San Francisco, CA  
Amy Garcia, MD, Oregon Health & Science University, Portland, OR  
Keith B. Isaacson, MD, Brigham and Women’s Health, Boston, MA  
Malcolm G. Munro, MD, Tarzana, CA  
Resad Pasic, MD, University of Louisville, Louisville, KY

At the end of this course, the participant should be able to:

- Appropriately troubleshoot and safely resolve a challenging hysteroscopic sterilization procedure.  
- Acquire, set-up and maintain equipment and supplies needed for office hysteroscopic procedures.  
- Use cervical anesthesia, oral and injectable medication effectively for patient comfort with office hysteroscopic procedures.  
- Utilize operative hysteroscopy for biopsy, polypectomy, myomectomy, metroplasty, sterilization and IUD removal.
Assessing Your Skills with Simulated Vaginal and Laparoscopic Hysterectomy
(ASSESS Course) - HO604

Room 6C

Erika H. Banks, MD, Albert Einstein COM, Bronx, NY
Chi Chung Grace Chen, MD, Baltimore, MD
Howard L. Cullin, MD, Medical Center North, Nashville, TN
Douglas W. Miyazaki, MD, Winston Salem, NC
Sangeeta Senapati, MD, Evanston, IL

Proctors: M. Jonathan Solnik, MD, Angela Chaudhari, MD, Jamal Mourad, MD, Joseph Gobern, MD, John D. Buek, MD, Leslie Kammire, MD, Malcolm Mackenzie, MD, Mikio A. Nihira, MD, MPH, Meleen Chuang, MD, Veronica T. Lerner, MD, Nicole Mahnert, MD

At the end of this course, the participant should be able to:
- Perform vaginal hysterecomy.
- Perform laparoscopic hysterectomy.
- Perform retropubic sling.
Accessory Cavitated Uterine Masses (ACUM)

Richard Guido, MD and Nicole Donnellan, MD
Pittsburg, PA
Ann Peters, MD, MS, Magee-Women's Hospital of UPMC, Pittsburg, PA

Accessory cavitated uterine masses (ACUM) represent a rare uterine entity observed in premenopausal women suffering from dysmenorrhea and chronic pelvic pain. The diagnosis is made when an isolated extra-cavitated uterine mass is resected from an otherwise normal appearing uterus with unremarkable endometrial lumen and adnexal structures. Pathological examination of the surgical specimen must confirm the absence of endometriosis and that the accessory cavity is filled with chocolate-brown fluid and lined by endometrial epithelium with glands and stroma. Although the origin of ACUM is currently unknown, the most common location is a 2-4 cm lateral uterine wall mass at the level of the insertion of the round ligament. Hence it has been hypothesized that gubernaculum dysfunction may be responsible for duplication or persistence of paramesonephric tissue leading to ACUM formation as a new Mullerian anomaly. Here, we present two cases that illustrate the laparoscopic ACUM resection in women desiring uterine-sparing surgery. The different techniques demonstrate two separate approaches to uterine resection depending on the patient’s desire for future fertility. ACUM are hypothesized to represent a new Mullerian anomaly liked to gubernaculum dysfunction during embryological development. ACUM usually occur at the lateral uterine wall at the insertion site of the round ligament, and should be considered in the differential diagnosis of patients presenting with dysmenorrhea and chronic pelvic pain. Laparoscopic resection is possible, but can be challenging due to distorted tissue planes.

Uterine-sparing Laparoscopic Resection of Accessory Cavitated Uterine Masses (ACUM)

Ann Peters, MD, MS, Magee-Women's Hospital of UPMC, Pittsburg, PA
Richard Guido, MD and Nicole Donnellan, MD

The objectives of our video are to review the structural anatomy and landmarks in six key avascular planes of the pelvis: the pararectal space, the paravesical space, the retropubic space or space of Retzius, the vesicovaginal space, the rectovaginal space, and the presacral or retrorectal space. For each space, we discuss techniques for access and surgical dissection and review relevant safety concerns. The essential knowledge of anatomy necessary for successful entry into the avascular planes of the pelvis is demonstrated in this video. We also focus specifically on techniques for ureterolysis and skeletonization of the uterine artery from its origin off the internal iliac artery. We explain general techniques for surgical dissection including traction-countertraction, “push and spread,” and the “forward swimming motion” as methods for hemostatic, blunt dissection. The avascular planes of the pelvis are potential spaces that are generally devoid of blood vessels and nerves. Knowledge of the avascular planes of the pelvis allows for safe and efficient gynecologic surgery. Access to the avascular pelvic spaces optimizes visualization by maximizing exposure and hemostasis while avoiding injury to nearby viscera, vessels, and nerves.

The Sinistral Surgeon: How to Teach the Left Hand Dominant Gynecology Trainee

Shannon Son MD, University of Colorado Hospitals, Aurora, CO
Tyler Muffly, MD

The purpose of this video presentation is to demonstrate how to avoid the five most common difficulties of the left-handed trainee. Handedness is a faster or more precise performance or individual preference for use of a hand. Handedness is not a discrete variable (right or left), but a continuous one that can be expressed at levels between strong left and strong right. There are several types of handedness: left-handedness, right-handedness, and ambidexterity. Eleven percent of Americans (20% of men and 8% of women) are left-handed. Studies reflect similar percentages of lefthanders among medical personnel. Left-handedness has been considered a simple inconvenience by some, whereas some lefthanded gynecologists feel that they are “the last unorganized minority.” There are a number of ways that a left-handed surgeon can overcome this righthanded bias. We describe five techniques. Left-handed individuals comprise a minority of gynecologic surgeons and trainees. Though many such individuals develop varying degrees of ambidexterity with experience, preferential use of their dominant hand is inevitable. Despite the hands-on nature of the gynecologist’s practice both in and out of the OR, tailored instruction for those with left-hand dominance is uncommon. Consequences, if any, of this missing training are unknown as left-handed gynecologists seem to adapt to environments biased to right-handed surgeons. Comparative studies are necessary to determine differences in performance, skill, and outcomes that may exist between left-handed gynecologists and their right-handed counterparts.
Musculoskeletal Assessment for the Female Patient with Pelvic Floor Dysfunction

Jennifer Schmitt, DO, Mayo Clinic, Rochester, MN

Beth Hoppe-Stidham, PT and John Occhino, MD, MS

The objective of this video is to review the relationship of the musculoskeletal system and pelvic floor dysfunction, as well as demonstrate a quick and efficient physical examination to identify dysfunction amenable to non-surgical treatment modalities. A complete physical examination to evaluate pelvic floor dysfunction symptoms (urinary, defecatory, dyspareunia and pelvic pain) includes proper assessment of a few key extra-pelvic structures as well as the pelvic floor musculature. These important structures can provide clues to the origin of the disorder, but can be easily overlooked while focusing on the gynecologic examination of the pelvis. A short, systematic physical examination of the musculoskeletal system including the pelvic floor musculature can identify dysfunction contributing to urinary, defecatory, and pain symptoms that are amenable to conservative management strategies.

Laparoscopic Removal of Essure Sterilization Device

Christina Evans MD, Kaiser Permanente Los Angeles Medical Center, Los Angeles, CA

Christina Saad MD, MBA, MSc and Claire Templeman, MD

We present the technique of laparoscopic bilateral salpingectomy for the removal of Essure implant devices in a patient with chronic pelvic pain status post placement of Essure devices. After thorough workup of the patient’s chronic pain, no other etiologies were elucidated. Extensive preoperative counseling was performed. Preoperative imaging confirmed proper location of the Essure devices within the fallopian tubes. Laparoscopically, on the left side, vasopressin was injected in the avascular space of mesosalpinx to assist in hemostasis. We then performed salpingotomy with a monopolar hook to identify location of Essure device. On the right side, we proceeded directly with salpingectomy to decrease the blood supply to the area, allowing us to forgo use of vasopressin for hemostasis. For both sides, bipolar Maryland and cold scissors were used to circumferentially dissect the Essure device from the cornua. We followed Essure coils into the interstitial end of the fallopian tube to ensure complete removal of the insert. This was performed in conjunction with a salpingectomy. A critical step in our procedure included diagnostic hysteroscopy and intraoperative x-ray to confirm removal of Essure devices in their entirety. We recommend that salpingectomy, as opposed to salpingostomy, for Essure removal can address pelvic pain while also reducing risk for ectopic pregnancy. Additionally, we assert that it is essential that an Essure removal include a diagnostic hysteroscopy and intraoperative x-ray or fluoroscopy to confirm removal of Essure devices in their entirety.

Stepping Up for Safety: Improving Teamwork in Ambulatory Care through the TeamSTEPPS® Model

Maureen Paul, MD, MPH, Beth Israel Deaconess Medical Center, Boston, MA

Evelyn Intondi, CNM and Ken Plitt, CRNA, MBA

The objective of this film is to educate health care providers about the potential of teamwork improvement training to advance patient safety in the ambulatory reproductive healthcare setting. The 1999 publication of “To Err is Human” by the Institute of Medicine catalyzed numerous national initiatives to reduce medical errors, including development and implementation of TeamSTEPPS®, an evidence-based system designed to improve team communication and team performance in healthcare. To date, most patient safety initiatives have occurred in hospitals, despite evidence showing that ambulatory facilities serve more than 1.25 billion patients annually and are vulnerable to errors. Following a brief introduction about patient safety in ambulatory care, this film introduces the principles of TeamSTEPPS®, including its four core team competencies of leadership, communication, situation monitoring, and mutual support. Using an embedded video vignette involving emergency hemorrhage during an office-based gynecological procedure, the film illustrates how the use of TeamSTEPPS® tools and strategies improves the efficiency, effectiveness, and safety of patient care. It also provides information on helpful resources for obstetrician-gynecologists, including ACOG’s Safety Certification in Outpatient Practice Excellence (SCOPE) for Women’s Health Program and the TeamSTEPPS® website. Training to improve team performance is a powerful means of enhancing patient safety in office settings, helping clinicians to fulfill our fundamental obligation to “first, do no harm”.

Iatrogenic Bladder Injury during D&C: Mechanism of Injury and Laparoscopic Repair

Michelle Louie, MD, University of North Carolina, Chapel Hill, NC

Suketu Mansuria, MD and Cara King, DO, MS

Our objective is to illustrate the mechanism of iatrogenic bladder injury during dilation and curettage and to demonstrate a laparoscopic approach to successful repair. We present the case of a 67-year old nulliparous woman who suffered concurrent uterine and bladder perforation during hysteroscopy, dilation and curettage, and polypectomy by her primary gynecologist. The Minimally Invasive Gynecology team was subsequently consulted for laparoscopic management. Cystoscopy revealed a 6 cm defect in the dome of the bladder and laparoscopy showed a 4 cm defect in the uterine fundus. Primary repair of the cystotomy with a two-layer closure was performed and water-tight coaptation was achieved. Hysterectomy was indicated for continued active bleeding from the large hysterotomy.
supracervical hysterectomy was performed to reduce the risk of vesicovaginal fistula formation and the retropubic space of Retzius was developed to mobilize the bladder from the anterior abdominal wall in order to achieve an optimal tension-free bladder repair. Post-operative cystourethrography demonstrated no extravasation, reflux, leak, or fistula. Follow-up one month after surgery confirmed that the patient was well with no residual issues. The mechanism of injury to the dome of the bladder after perforation through the uterine fundus involves the dynamic changes that occur with downward traction on a cervical tenaculum. During D&C, bladder injury can occur in conjunction with uterine perforation and is a rare complication that is amenable to laparoscopic management.

Vaginal Salpingectomy: Tips and Tricks

Jennifer Byrnes, DO, Mayo Clinic, Rochester, MN
Jennifer Schmitt, DO and John Gebhart, MD

Salpingectomy at the time of pelvic surgery or in place of tubal ligation for permanent sterilization has several benefits, including reduction in ovarian cancer risk and reoperation for tubal pathology, as well as preservation of ovarian function. Despite recommendations from the Society of Gynecologic Oncologists to perform opportunistic salpingectomy, studies have shown that it is underutilized. The safest and most cost-effective route of hysterectomy is the vaginal approach, so improving clinician comfort with vaginal salpingectomy is paramount. The objective of this video is to review the literature supporting opportunistic salpingectomy, and to demonstrate surgical techniques to optimize feasibility of vaginal salpingectomy at the time of hysterectomy and for permanent sterilization. Serious complications related to salpingectomy are rare and can be minimized with surgical techniques including abdominal packing, the use of retractors, and careful placement of surgical instruments. Salpingectomy at the time of vaginal hysterectomy is facilitated by optimal exposure of the surgical field and precise placement of clamps and suture. Posterior culdotomy with bilateral salpingectomy is an uncommonly used, but safe and feasible alternative approach to permanent sterilization. Vaginal salpingectomy at the time of hysterectomy or for permanent sterilization is a safe and effective procedure to reduce ovarian cancer risk.

Preventing Ovarian Cancer: What Every Woman Should Know

Imari Moore, MD, Mount Sinai West & St. Lukes Hospital Center, Oklahoma City, OK
Lisa Anderson, MD

The objective was to educate women about the tubal pathogenesis of ovarian cancer and the role of salpingectomy in ovarian cancer risk reduction. Our goal was to increase patient knowledge and interest in choosing salpingectomy during the time of permanent sterilization or benign gynecologic surgery as a risk reducing strategy. This was a 4 minute video featuring a physician speaking about reproductive anatomy, ovarian cancer, and the role of salpingectomy as a risk reducing strategy. Simple diagrams were utilized to explain concepts. The video was in English with Spanish subtitles. Patients completed a survey before and after watching the video. After watching the video, most women reported understanding the role of salpingectomy as a risk reducing strategy and were more likely to consider the procedure at the time of sterilization or benign pelvic surgery. Informed women were more likely to express an interest in salpingectomy as a risk reducing measure.

Caring for the Caregiver: Psychological First Aid for the OB/GYN

Kimberly Gecsi, MD, UH MacDonald Women’s Hospitals, Case Western Reserve University, Cleveland, OH

Nancy Lynch and Robert Kramer, MA

After watching this film, viewers will be able to:

- Understand that traumatic experiences in the care of patients can have a lasting effect on providers.
- Recognize the importance of peer support and the benefit of the ABCs: ASK, BE THERE, CARE.
- Develop a plan for self-care to help deal with the effects of psychological trauma.

Traumatic experiences are common in the care of OB/GYN patients. A medical error, patient death, or other unexpected outcome are an unpleasant reality of providing care to patients. These experiences have lasting psychological effects on providers and leave many feeling that they are alone. Feelings of isolation, fear, or even embarrassment prevent them from reaching out and talking about their experience and their feelings. Residents and junior faculty that experience these events for the first time are the most susceptible to lasting effects from traumatic experiences. This film is designed to recognize and normalize the effects that trauma can have and also provide an opportunity for viewers to learn what they can do to minimize the effects of trauma on themselves and others. Our nursing colleagues have similar experiences and their stories are included in this film. This film can be used to introduce the topic to an interdisciplinary group with the goal of prompting discussion on how lasting effects of trauma can be minimized. It can also be used to help others understand that their experiences and feelings are normal.
Uterine Fibroid Surgery and Morcellation: A Patient-centered Preoperative Educational Video

Benjamin Harris, MD, MPH, Duke University, Durham, NC
Mireille Truong, MD and Matthew Siedhoff, MD, MSCR

The objective of this educational video is to provide information and counseling for patients undergoing surgery for fibroids. Uterine fibroids affect 80% of women and are the indication for approximately 200,000 surgeries annually in the United States. Approximately 63% of these surgeries (e.g. hysterectomy and myomectomy) are done using minimally invasive techniques. Minimally invasive surgery (MIS) for uterine fibroids requires morcellation for large fibroids. Morcellation can potentially make patient prognosis worse in the rare event of occult sarcoma. Controversy surrounding morcellation was subject to extensive publication in the medical and non-medical environments and has led to confusion and challenges for physician-patient communication. This is one of two educational patient videos that serves as a tool to help physicians counsel patients at the time of surgical management for fibroids and to help patients better understand the procedure. The video 1) reviews the basics of leiomyoma, 2) discusses surgical approaches for management of fibroids, 3) addresses morcellation and the steps taken to protect the patient during such procedures, via animations, diagrams and short clips of surgical footage. Patient-physician communication is essential, especially when counseling patients for surgery. Educational videos for patients can be used as an additional tool when counseling patients. Currently, a pilot study, using this patient-centered preoperative education video, is being conducted to evaluate the utility of this tool for patients’ decision making surrounding surgery for uterine fibroids.

4:06 PM - 5:00 PM
Approach to Laparoscopic Hysterectomy of Large Fibroid Uteri

Michelle Louie, MD, University of North Carolina, Chapel Hill, NC
Cara King, DO, MS and Ted Lee, MD

Large fibroid uteri can pose several challenges to a laparoscopic approach for hysterectomy and can result in increased operating time, increased blood loss, and injury to surrounding structures. These obstacles include limited visualization, decreased uterine manipulation, distortion of normal anatomy, and greater vascularity. We presents three cases to illustrate several important techniques in order to achieve a safe and efficient hysterectomy in cases of large fibroid uteri. We demonstrate: placement of a subxiphoid port, use of an angled laparoscope, use of Breisky-Navratil retractors to define the vesicovaginal plane for creation of the bladder flap and colpotomy, and ligation of the uterine artery from its origin off the anterior division of the internal iliac artery or from the anterior leaf of the broad ligament. We also demonstrate amputation of the uterus prior to fibroid debulking in order to decrease additional blood loss and increase visualization and the use of a scalpel for efficient debulking. Several important techniques can allow for a safe and efficient laparoscopic approach to hysterectomy of large fibroid uteri.

A Novel, Safe, Low Cost Approach to Bilateral Salpingectomy at Cesarean Section

Evelyn Hall, MD, Northwestern University, Chicago, IL
Miroslav Djordjevic, RSA, SA-C and Farah Alvi, MD, MS

Partial removal of the fallopian tube during tubal sterilization is well described in the literature. However, as emerging evidence suggests that salpingectomy reduces the risk of ovarian cancer, more obstetricians are recommending salpingectomy for sterilization. Few descriptions of surgical techniques exist in the literature, where the fallopian tubes are edematous and the mesosalpinx often contains enlarged, tortuous blood vessels. Given the increased vascularity at time of delivery, some advocate for the use of expensive, disposable bipolar sealing devices to ensure hemostasis. We describe a novel, safe, low cost approach at the time of tubal sterilization. After hysterotomy closure, the fallopian tube is elevated and the branching vessels within the mesosalpinx are identified. Using monopolar electrosurgery windows are created within the mesosalpinx. The fallopian tube is clamped at the utero-tubal junction and suture ligated. The branching vessels are isolated, ligated and tied with polyglactin. The mesosalpinx between the fimbriated infundibulum and ovary is then separated with a polyglactin transfixion stitch. This technique has been implemented at our institution in 30 cases over the past 6 months. The procedure takes 3 minutes per side, and no complications have been noted. Financial data from our institution demonstrate a cost savings of $625 per salpingectomy when compared to using a disposable bipolar sealing device. The procedure affords an opportunity to allow residents to improve their surgical technique, isolate and secure vessels individually, and make use of electrosurgery in a novel fashion.

Management of Intraoperative Bleeding in Laparoscopic Gynecology

Noah Rindos, MD, Magee-Womens Hospital, Pittsburgh, PA
Nicole Donnellan, MD and Ted Lee, MD

The management of intraoperative bleeding during laparoscopic surgery enables completion of the surgery without converting to an open procedure. This video reviews the techniques of pressure, cautery, suture and topical agents to achieve hemostasis. Surgical bleeding should be controlled while avoiding injury to nearby structures such as ureters and bowel.
Vocal Local: A Unique Approach to Tubal Ligation in Hawassa, Ethiopia
Mary Rysavy, MD, University of Wisconsin Madison, Madison, WI
Zenebe Wolde, MD and Cynthie Anderson, MD, MPH
Gynecologists at Hawassa University in Ethiopia perform tubal ligations using a method called “Vocal Local.” The program falls within a country-wide family planning initiative that has significantly reduced unmet need for contraception in Ethiopia in the last 15 years. "Vocal Local" involves performing tubal ligation surgery through a mini-laparotomy incision, under local anesthesia. A key component of the procedure includes having a nurse or surgical assistant engage the patient in conversation throughout the surgery. Keeping the patient engaged and distracted has been shown to reduce pain and anxiety during these surgeries. Tubal ligation with vocal local anesthesia provides an excellent option for offering permanent contraception to women in settings with limited access to anesthesia and operating room resources. Additionally, this technique provides an avenue for bi-directional exchange, as practitioners in higher-resource settings might consider the practice when looking for ways to minimize costs while still providing excellent care.

Laparoscopic Management of Cesarean Scar Ectopic Pregnancy
Christina Ramirez, MD, University of Pittsburgh School of Medicine, Pittsburgh, PA
Mallory Stuparich, MD and Ted Lee, MD
Cesarean scar ectopic pregnancies are rare occurring 1 out of every 2000 pregnancies and carry a high risk of uterine rupture and hemorrhage due to the weakened myometrial wall overlying the pregnancy. Medical management may lead to slow resolution increasing the risk of uterine rupture. We demonstrate a safe laparoscopic approach to excision of a cesarean scar ectopic pregnancy by using surgical techniques to minimize intraoperative blood loss by temporarily ligating arterial vasculature and injecting vasopressin locally, lyse dense bladder adhesions using bladder back-filling technique, and reconstruct the anterior uterine wall using a Foley catheter. By using these surgical techniques, cesarean scar ectopic pregnancies can be safely treated laparoscopically with minimal blood loss while preserving a patient’s future fertility.

ELECTRONIC POSTER PRESENTATIONS

Refer to The Supplement of Obstetrics & Gynecology. It is comprised of the abstracts of all of the presented papers and ePosters at the 65th Annual Clinical and Scientific Meeting of the American College of Obstetrician and Gynecologists.

Electronic posters are available for viewing throughout the meeting. Authors of ePosters will present a brief summary of their posters at the beginning of their time slot then will be available for Q & A during the remainder of the session.

Blue Ribbon abstracts are awarded to those who received the highest ranking.

Convention Center, Ballroom 20A
Saturday, May 6

11:00 AM - 12:00 PM
ePoster Session A

CONTRACEPTION/FAMILY PLANNING

Efficacy of Intrauterine Lidocaine and Naproxen for Pain Control With Intrauterine Device Insertion [IA]
Shana Miles, MD, PhD
U.S. Air Force, Bethesda, MD
Katerina Shvartsman, MD, and Susan Dunlow, MD

Megha Trivedi
UCSF, San Francisco, CA
Jenny Murase, MD, and Anna Anderson, MD

Evaluation of Pain Management During First Trimester Surgical Abortions Using Moderate Sedation [3A]
Rebecca Falik, MD
Center for Special Minimally Invasive and Robotic Surgery, Palo Alto, CA
Katie Alton, MD, Sejal Hathi, and Luwam Semere, MD

Evaluation of Postpartum Contraceptive Plan and Actual Use [4A]
Elizabeth Vuong, PharmD
UCSD Health System, San Diego, CA
Chiao An Chiu, Shaddi Habib, Sally Rafie, PharmD, Sheila Mody, MD, MPH, and Lisa Bayer, MD, MPH

Expulsion of Immediate Postplacental Copper IUDs at Six Weeks: A Prospective Cohort Study [5A]
Elizabeth Gurney, MD, MPH
Einstein Medical Center Philadelphia, PA
Sarita Sonalkar, MD, MPH, Arden McAllister, MPH, Jessica McClusky, Alhambra Frarey, MD, and Courtney Schreiber, MD, MPH

Factors Affecting Abortion Provision Among Obstetrics and Gynecology Residents: A National Survey [6A]
Nadine Hammoud, MD
Inova Fairfax Hospital, Falls Church, VA
Emily Marko, MD, CHSE, and Kelsey Nieves

Does Age Influence Knowledge and Attitudes About Intrauterine Devices (IUDs)? [7A]
Sara Edwards
Sidney Kimmel Medical College at Thomas Jefferson University, Philadelphia, PA
Lisa Perriera, MD, MPH, and Rebecca Mercier, MD

Factors Influencing Contraception Use in Rural Haiti Women: A Mixed-Methods Pilot Study [8A]
Jasmin Reyes, MS
David Geffen School of Medicine, Los Angeles, CA
Erica Tukiainen, Susan Partovi, MD, and Aparna Sridhar, MD, MPH

Do Women Undergoing Surgical Abortion Versus Medical Abortion Choose Different Methods of Contraception? [9A]
Anton Bogdanov, MD
NYU Lutheran, Brooklyn, NY
Michael Molaei, MD, Finn Schubert, and Meera Kesavan, MD

Abortion Stigma Resulting from State-Mandated Abortion Consent Language: A Randomized Controlled Trial [10A]
Sarita Sonalkar, MD, MPH
Perelman School of Medicine at the University of Pennsylvania, Philadelphia, PA
Elizabeth P. Gurney, MD, MPH, Arden McAllister, MPH, and Courtney Schreiber, MD, MPH

Four-Year Efficacy and Safety of the Liletta™ Levonorgestrel Intrauterine System [11A]
Michael Thomas, MD
University of Cincinnati, Cincinnati, OH
Beatrice A. Chen, MD, MPH, Lisa M. Keder, MD, MPH, Thomas D. Kimble, MD, Jeffrey T. Jensen, MD, MPH, and Mitchell D. Creinin, MD

Acceptance and Continuation of Immediate Postpartum LARC: Experiences from a Texas Hospital [12A]
Cristina Wallace Huff, MD
UT Health McGovern Medical School, Houston, TX
Sara Holcombe, DO, Jenny Duret-Uzodinma, MD, Chloe Dillaway, Kristine Hopkins, PhD, and Joseph E. Potter, PhD

Alissa Dries, MD
Rush University Medical Center, Chicago, IL
Allison Cowett, MD, MPH, and Sloane York, MD, MPH
**ELECTRONIC POSTER PRESENTATIONS**

**The Availability of Long-acting Reversible Contraception Through Los Angeles County FamilyPACT Clinics [14A]**
Melissa Faith Natavio, MD, MPH  
*University of Southern California Keck School of Medicine, Los Angeles, CA*
Niquelle Brown, MS, Elizabeth Blotky, Christine Van Horn, Caitlin Waters, and Anita Nelson, MD

**Survey of OBGYN Residents to Assess Awareness and Use of the U.S. CDC Medical Eligibility Criteria for Contraceptive Use [15A]**
Angela Marchin  
*Ohio State University, Columbus, OH*
Michelle Isley, MD

**Sterilization Procedures: A Missed Opportunity to Prevent Cancer in Patients Treated at U.S. Residency Programs? [16A]**
Tiffany Redfern, MD  
*University of Texas Medical Branch, Galveston, TX*
Lyuba Levine, MD, and Gwyn Richardson, MD

**Spousal Concordance in Knowledge of Contraceptive Methods Among Married Couples in Rural Maharashtra, India [17A]**
Sheila Mody, MD, MPH  
*UC San Diego Health, San Diego, CA*
Niranjan Saggurti, PhD, Jay Silverman, PhD, Balaiah Donta, PhD, and Anita Raj, PhD

**Generic or Branded?: Oral Contraception Prescription Patterns in an Academic Medical Center [18A]**
Shiliang Zhang  
*UCLA David Geffen School of Medicine, Los Angeles, CA*
Aparna Sridhar, MD, MPH

**Epidemiological Surveillance of Teen Birth Rates in the United States 2006-2012 [19A]**
Raid Amin, PhD  
*University of West Florida, FL*
Julie DeCesare, MD, and ikela Roussos-Ross, MD

**Zika: Preconception & Perinatal Opportunities in Los Angeles County (LAC) [21A]**
Adriana Ramos  
*LA County Public Health, Los Angeles, CA*
Diana E. Ramos, MD, MPH

**Results from the Secure Trial, a Phase 3 Study of the ag200-15 Investigational Transdermal Contraceptive Patch [22A]**
Elizabeth Garner, MD, MPH  
*Agile Therapeutics, Princeton, NJ*
Joseph Chiodo, PharmD

**Hormonal Contraception and Therapy Use in Breast Cancer Survivors: Do Recurrence or Mortality Risks Increase? [23A]**
Sara M. O’Meara, DO  
*Aurora Health Care, Milwaukee, WI*
Danielle M. Greer, PhD, Jessica J.F. Kram, MPH, Judy A. Tjoe, MD, FACS, and Benjamin Dorton, MD

**An EPIC Hierarchical Data Collection Schema to Assess Contraceptive Counseling in Primary Care [24A]**
Brittany Roser  
*Albert Einstein College of Medicine, Bronx, NY*
Susan Rubin, MD MPH, Nisha Nagarajan, and Nerys Benfield, MD, MPH

**Development and Pilot Testing of Theory Based Comic for Intrauterine Device Information [25A]**
Aparna Sridhar, MD, MPH  
*UCLA Health, Los Angeles, CA*
Alice Brown, and Karen Roque, MPH

**Describing Postpartum Contraceptive Counseling and Patient Satisfaction at a Large Urban Academic Medical Center [26A]**
Jessica Jou, MD, MS  
*Montefiore Medical Center, Bronx, NY*
Molly Findley, DO, MPH, Lauren McMahon, Arisa Kapedani, MS, Erika Levi, MD, MPH, and Nerys Benfield, MD MPH

**Racial and Ethnic Disparities in Contraceptive Use in Young Women [27A]**
Cecilia Bahamon  
*UMass Medical School, Worcester, MA*
Katherine Leung, MPH, and Luu Ireland, MD, MPH

**Cost-effectiveness of State Policies Banning Pregnancy Termination After Down Syndrome Diagnosis [28A]**
Karen Scrivener  
*Oregon Health and Science University, Portland, OR*
Maria Rodriguez, MD, MPH, Leah Savitsky, Blake Zwerling, Kimberley Bullard, and Aaron Caughey, MD, PhD

**Public Interest in ESSURE Tubal Occlusion [29A]**
Katherine E. Schertz  
*Rutgers Robert Wood Johnson Medical School, New Brunswick, NJ*
Adrian Balica, MD, Christian Stadler, and Gloria Bachmann, MD, MMS

**Provider Counseling and Women’s Family Planning Decisions in the Postpartum Period [30A]**
Alison N. Goulding, MD, MSCR  
*University of North Carolina School of Medicine, Chapel Hill, NC*
Anna E. Bauer, MPH, Amy G. Bryant, MD, MSCR, and Alison M. Stuebe, MD, MSc

Empathetic yet Resistant: Accommodating Immigrant Women’s Preferences for Female Providers [36C]
Christa L. Aubrey, MD
University of Alberta, Edmonton, Alberta, Canada
Zubia Mumtaz, MBBS, MPH, PhD, Radha Chari, MD, FRCSC, and Peter (BF) Mitchell, MD, FRCSC

Advanced Maternal Age and Perinatal and Obstetrical Outcomes - a Population-Based Study [37C]
Tina C. Liang, MD
University of Alberta, Edmonton, Alberta, Canada
Susan Crawford, MSc, and Sue Chandra, MD, FRCS, MSc

Barriers for Tdap Vaccination in Pregnancy [38C]
Mary Ashby, MD
UF Health, Gainesville, FL
Dikea Roussos-Ross, MD, Hanna Peterson Julie DeCesare, MD, Samantha Vidrine, MD, and Elizabeth Floy

Postpartum Oral Glucose Tolerance Test: Predictors of Testing and Abnormal Results in a Community Hospital [39C]
Rukeme Ake-Uzoigwe, MD, MPH
Icahn School of Medicine, Queens Hospital Center Program, New York, NY
Anubha Arora, MD, Dongping Zhang, MD, Carolyn Salafia, MD, Kolawole Akinwawonu, MD, and Aleksandr Fuks, MD

EDUCATION
Can the Acting Intern Elective for 4th Year Students Teach and Assess APOG/CREOG Obstetric Competencies? [40C]
Etoi Garrison, MD, PhD
Vanderbilt Medical Center, Nashville, TN
Charles Ruth, MD, Jada Fambrough, Leilani Mason, CNM, Melinda New, MD, Mack Goldberg, MD, and Charlene M. Dewey, MD, MEd, FACP

Convention Center, Ballroom 20A
Saturday, May 6

3:30 PM–4:30 PM
ePoster Session D

SIMULATIONS
The Effectiveness of Teaching Obstetrical Respiratory Emergency Management Using Simulation [1D]
Neil Patel
Virginia Commonwealth University, Inova Campus, Falls Church, VA
Emily Marko, MD, CHSE, and Kelsey Nieves

The Effectiveness of Simulation Training in the Management of Eclampsia [2D]
Ekaterina Kolmogorova, MD
Inova Health System, Falls Church, VA
Danielle Wright, MD, Mansi Taneja, MD, Emily Marko, MD, CHSE, and Kelsey Nieves
Utilizing 3D Printing Model of Placenta Precreta to Guide Obstetric Operation [3D]
Jingsi Chen
The Third Affiliated Hospital of Guangzhou Medical University, Guangzhou, China
Hong He, Ting Song, Chunhong Su, and Dunjin Chen

Evaluation of Clinical Simulation Curriculum to Improve Resident Performance During Maternal Code Simulation [4D]
Shawn E. Zimbrunes, MD
MedStar Washington Hospital Center/Georgetown University Hospital, Washington, DC
Tamika C. Auguste, MD and Vi Duong

The Effect of Surges in Patient Volume on Resource Management of an Academic Labor and Delivery Unit [5D]
Rose Molina, MD
Beth Israel Deaconess Medical Center, Harvard Medical School, Boston, MA
Matthew Comomaly, SM, Jennifer Jonas, Julie Shah, PhD, Toni Golien, MD, and Neel T. Shah, MD, MPP

A Novel High Fidelity Multidisciplinary Simulation Exercise to Improve Team Response to Postpartum Hemorrhage [6D]
Monica A. Lutgendorf, MD
Naval Medical Center San Diego, San Diego, CA
Michael J. Miller, MD, Carmen N. Spalding, PhD, Kristina V. Morocoo, MD, Jason O. Heaton, MD, and Shad Deering, MD

Validation of an Affordable and Accessible Alternative Simulation Technology [7D]
Tamika C. Auguste, MD
MedStar Health, Washington, DC
Natalie C. Benda, MS, Kathryn Kellogg, MD, MPH, and Rollin Fairbanks, MD, MS

Correlation of Obstetrical Skills and Confidence Level of Skilled-birth Attendants in Rural Rwanda [8D]
Veronica Maria Pimentel, MD, MS
Albert Einstein College of Medicine/Montefiore Medical Center, Bronx, NY
Denis Rwab, MD, John Gahima, MD, MMED, Stephen Rulisa, MD, MPH, Peter Bernstein, MD, MPH, and Lisa Nathan, MD, MPH

Long-Term Skills Retention After Obstetric Simulation Training for Skilled-Birth Attendants in Rural Rwanda [9D]
Veronica Maria Pimentel, MD, MS
Albert Einstein College of Medicine/Montefiore Medical Center, Bronx, NY
Denis Rwab, MD, John Gahima, MD, MMED, Stephen Rulisa, MD, MPH, Peter S. Bernstein, MD, MPH, and Lisa Nathan, MD, MPH

GYNECOLOGY
Transgender Men’s Experiences with and Perceptions of Gynecologic Care [10D]
Lydia A. Fein, MD, MPH
University of Miami Miller School of Medicine, Miami, FL
Adriana Wong, David Honorio, Christopher J. Salgado, MD, and Carlos A. Medina, MD

The Effect of Uterine Size on the Failure Rate of NovaSure Radiofrequency Endometrial Ablation [11D]
Laurel D. Cantrell
Mercer University School of Medicine, Savannah, GA
David Byck, MD, and Amelia Bostwick, MD

Blood Loss During Voluntary Termination of Pregnancy: a Comparison of Anesthetics [12D]
Camille A. Clare, MD, MPH, CPE
New York Medical College, New York, NY
Neela Shrestha, MD, Michael Girshin, MD, Andre Broumas, MD, Danielle Carmel, and Mario A. Inchiosa, PhD

The Effect of Partial Bladder Filling on Post-Operative Time to Void in Minimally Invasive Gynecologic Procedures [13D]
Gaby Moawad, MD
George Washington University Hospital, Washington, DC
Elias Abi Khalil, Taylor Gilmore, MD, Cherie Marfori, MD, Maria Vargas, MD, and Jenna Ebert, MS

Blood Transfusion Trends in Women With Abnormal Uterine Bleeding [14D]
Roopina Sangha, MD, MPH
Henry Ford Hospital, Detroit, MI
Madhurima Keerthy, MD

Pain and Sleep Around Hysterectomy: A Prospective Cohort Study [15D]
Melanie Levy
University of Texas Medical Branch, Galveston, TX
Jessica Meers, MA, Jacqueline Stout-Aguilar, PhD, Gokhan Kilic, MD, Mostafa Borahay, MD, PhD, and Sara Nowakowski, PhD

Outcomes Associated with Transfusion at Time of Hysterectomy [16D]
Subhratha Maredia, MD
TriHealth, Cincinnati, OH
Catrina Crisp, MD, MSc, Ganga Devaiah, MS, Kim Blanton, RN, and Kevin M. Schuler, MD

A Step Towards Optimizing Antimicrobial Utilization in Gynecologic Surgery at a Tertiary Care Center [17D]
Erika R. Wallace
University of Illinois College of Medicine at Peoria, Peoria, IL
Thusitha Cotter, MD

Effect of Bilateral Salpingectomy on Total Hysterectomy Cost: A National inpatient Sample Analysis [18D]
David Sheyn, MD
UH Cleveland Medical Center, Cleveland, OH
Megan Billow, MD, Sangeeta Mahajan, MD, Alex Soriano, MD, and Sherif El-Nashar, MD
Outcomes After Mini-laparotomy for Tissue Extraction Following Laparoscopic Hysterectomy [19D]
Steven Radtke, MD
UT College of Medicine, Chattanooga, TN
Rayan Elkattah, Stephen DePasquale, MD, Todd Boren, MD, Shanti Mohling, MD, and Jenny Holcombe, PhD

Preventing Ovarian Cancer: What Every Woman Should Know [20D]
Imari Moore, MD
Mount Sinai West and St. Luke’s Hospital, New York, NY
Lisa Anderson, MD

Cost of Gynecologic Laparoscopy in Rural Western Kenya [21D]
Jennifer Makin, MD
Massachusetts General Hospital, Boston, MA
Aparna Ramanathan, MD, Rafique Parkar, MD, Thomas Burke, MD, and Melody Eckardt, MD, MPH

Prevalence of Leiomyosarcoma Following Hysterectomy at a Single-site Institution [22D]
Lisa Chao, MD
Magee-Womens Hospital, University of Pittsburgh Medical Center, Pittsburgh, PA
Deirdre Lum, MD

The Association Between Fibroid Weight and Perioperative Outcomes for Women Undergoing Myomectomy [23D]
Elisabeth Sappenfield, MD
University of South Florida, Tampa, FL
Branko Miladinovic, PhD, Papri Sarkar, MD, Anthony Imudia, MD, and Emad Mikhail, MD

Opioid Prescription and Patient Use Following Gynecologic Procedures [24D]
Kendall Griffith, MD
Tufts Medical Center, Boston, MA
Nisse Clark, MD, Kelly Wright, MD, Andrea Zuckerman, MD, and Tanaz Ferzandi, MD

Pre-Surgical Huddles Improve Operating Room Efficiency and Teamwork [25D]
Kathie Hullfish, MD, FACS
UVA Health System, Charlottesville, VA
Keith Morris, Elizabeth Hall, and George Rich, MD

Identification and Resection of Endometriosis Using Indocyanine Green [26D]
Mariam Hanna, MD
Presence St. Francis Hospital, Chicago, IL
Ashley McSorley, and Maria Teresa Tam, MD

Academic and Community Partnerships: Telepsychiatry for Perinatal Depression in a Rural Setting [31D]
Tatiana Acosta, MPH
Brody School of Medicine at East Carolina University, Greenville, NC
Samantha Meltzer-Brody, MD, MPH, and Sue Tolleson-Rinehart, PhD

Acceptability of Supplemental Progesterone to Prevent Preterm Labour and Low Birth Weight in Pregnant Zambian Women [32D]
Jeffrey M.H. Wong
University of Toronto, Toronto, Ontario, Canada
Nupur Dogra, MSc, Neha Kanga, Mary Ngoma, MBCHB (UNZA), MRCP, FRCP, DCH (UK), Lena Serghides, PhD, and Michael Silverman, MD, FRCP

Cerclage for Management of Twin Pregnancies with Short Cervical Length: A Single-center Retrospective Cohort Study [33D]
Esha Behl, DO
MSU/St. Joseph Mercy Oakland Hospital, Pontiac, MI
June Murphy, DO, George Kazzi, MD, and Mostafa Abuzeid, MD

Ondansetron Use During Pregnancy for Nausea and Vomiting and the Risk of Preterm Birth [34D]
Dean V. Coonrod, MD, MPH
Maricopa Integrated Health Systems, Phoenix, AZ
Amir J. Lueth, MPH, Scott A. Sullivan, MD, MSCR, Garrett Lam, MD, Kim A. Boggess, MD, and Durlin E. Hickok, MD, MPH

Case Report of Recurrent Sigmoid Volvulus in Pregnancy and Management Plan of the OB/GYN Hospitalist [35D]
Scott-May Olds, MD
WellHealth Women’s Specialty Care, Las Vegas, NV
Jennifer A. Wong, MS

OBSTETRICS

Effects of Group Prenatal Care on Connection to Site of Care [27D]
Sarah Crimmins, DO
University of Maryland School of Medicine, Baltimore, MD
Julia Lubsky, MD, and Jenifer Fahey, CNM, MPH

Obstetric Outcomes of Pregnancy Complicated by Marfan Syndrome: A Retrospective Cohort Study [28D]
Emily Clennon
Oregon Health and Sciences University, Portland, OR
Aaron B. Caughey, MD, PhD, Zoe Teton, and Brian Shaffer, MD

Blood Pressure Trends in Pregnancy: Is There a New Normal? [29D]
Joshua Benham, MD
George Washington University Hospital, Washington, DC
Nihar Ganju, MD, Sheetal Sheth, MD, and Kathryn Marko, MD

Obstetrical Clostridium Difficile Infection: A Retrospective Cohort Study [30D]
Jacob Ruiter-Ligeti, MD
McGill, Montreal, Quebec, Canada
Sophie Vincent, Nicholas Czuzoj-Shulman, and Haim Arie Abenhaim, MD, MPH

Academic and Community Partnerships: Telepsychiatry for Perinatal Depression in a Rural Setting [31D]
Tatiana Acosta, MPH
Brody School of Medicine at East Carolina University, Greenville, NC
Samantha Meltzer-Brody, MD, MPH, and Sue Tolleson-Rinehart, PhD

Acceptability of Supplemental Progesterone to Prevent Preterm Labour and Low Birth Weight in Pregnant Zambian Women [32D]

Penn State Milton S. Hershey Medical Center, Hershey, PA
Kristen H. Kjerulff, PhD, Timothy Deimling, MD, MSc, Rebecca Phaeton, MD, and John T. Repke, MD

Join Our Team Supporters

The daily themes of the Annual Clinical and Scientific Meeting make it possible for industry leaders to support our shared areas of focus and commitment. Special thanks to CoverHer.org, a project of the National Women’s Law Center, TherapeuticsMD and Myriad.
Electronic Poster Presentations

Refer to The Supplement of Obstetrics & Gynecology. It is comprised of the abstracts of all of the presented papers and ePosters at the 65th Annual Clinical and Scientific Meeting of the American College of Obstetrician and Gynecologists.

Electronic posters are available for viewing throughout the meeting. Authors of ePosters will present a brief summary of their posters at the beginning of their time slot then will be available for Q & A during the remainder of the session.

Blue Ribbon abstracts are awarded to those who received the highest ranking.

Convention Center, Ballroom 20A
Sunday, May 7

8:00 AM-9:00 AM
ePoster Session E

Office Practice

HPV Vaccination Rates Amongst Academic Based Gynecology Clinics [1E]
Tia Jackson-Bey, MD, MPH
Duke University, Durham, NC

Tashima Lambert, MD, MPH, Charlotte Gamble, MD, MPH, Latoya Patterson, MD, MPH, and Monica Jones, MD

Language Barriers Between Providers and Patients: Does It Equal to Patient Dissatisfaction? [2E]
Nourhan Mustafa, MD
Texas Tech University Health Sciences Center, El Paso, TX

Nancy Rondeau, MPH, and Melissa Mendez, MD

Pain Perception After Office Hysteroscopy Alone vs. Hysteroscopy With Endometrial Biopsy [3E]
Erika New, MD, MPH
University of South Florida, Tampa, FL

Emad Mikhail, MD, Elisabeth Sappenfield, MD, Papri Sarkar, MD, Shayne Plosker, MD, and Anthony Imudia, MD

Exploring the Patient Decision-making Process in Choosing Route of Hysterectomy [5E]
Louise van der Does, PhD
The Center for Innovative Gyn Care, Rockville, MD

Rupen P. Baxi, MD, Paul MacKoul, MD, Natalya Danilyants, MD, and Kelly Washington

Factors Influencing Medication Adherence in High Risk Pregnant Patients [6E]
Dimitrios Mastrogiannis, MD, PhD, MBA
University of Illinois at Chicago School of Medicine, Chicago, IL

Micaela Della Torre, MD, MS, Laura DiGiovanni, MD, and Michael Wedoff

Gestational Weight Gain in Diabetic Women: Do Supportive Text Messages Make a Difference? [7E]
Angela Gupta
Saint Louis University School of Medicine, St. Louis, MO

Christopher Buchanan, MD, Jeffrey Gavard, PhD, Sarah Hostetter, MD, Collin Miller, MSW, and Dorothea Mostello, MD

An Exploration of Clinician’s Personal Experience of Trauma and Its Impact on Screening Female Patients For Trauma [8E]
Conisha Cooper
Johns Hopkins University School of Medicine, Baltimore, MD

Denis Antoine, MD, Amy S.D. Lee, DNP ARNP, WHNP-BC, Nathan Irvin, MD, and Jenell Coleman, MD, MPH

Residency Satisfaction in Ambulatory Clinics: Improvement Is Possible [9E]
Martha Kole, MD
Women and Infants Hospital of Rhode Island, Providence, RI

M. Alexandra Friedman, MD, and Renee Eger, MD

Differences in Patient and Provider Views on Gestational Weight Gain and Exercise Counseling During Pregnancy [10E]
Arlin Delgado
The George Washington University School of Medicine, Washington, DC

Lauren Stark, MPP, Charles J. Macri, MD, FACMG, and Jay Schulkin, PhD

Addressing Loss of Low Risk Obstetric Patients to Postpartum Care in an Inner City Hospital [11E]
Temple University Hospital, Philadelphia, PA

Marisa Rose, MD

Group Prenatal Care and Its Effects on Triage Visits [12E]
Saint Louis University School of Medicine, St. Louis, MO

Christopher Buchanan, MD, Jeffrey Gavard, PhD, Sarah Hostetter, MD, Collin Miller, MSW, and Dorothea Mostello, MD

Analysis of Cytology and Histopathology Results in an Immunocompromised Population [13E]
Bassett Medical Center, Farmington, CT

Kimberly Hunt, MD, and Christopher Morosky, MD, MS

Analysis of Screening Women for Cervical Cancer Following an Excision for Cervical Intraepithelial Neoplasia [14E]
Bassett Medical Center, Farmington, CT

Kimberly Hunt, MD, and Christopher Morosky, MD, MS
ELECTRONIC POSTER PRESENTATIONS

Prevalence of Abnormal Pap Smear in Women Undergoing Liver Transplantation [15E]
Pualami Guha
University of Miami, Jacksonville, FL
Ali Wells, Tri Dinh, MD, Justin Nguyen, MD, and Denise Harnois, DO

A Coordinated Cultural Shift Improves Breastfeeding Exclusivity in a Federally Qualified Health Center [16E]
Sharon Stechma
Perelman School of Medicine, University of Pennsylvania, Philadelphia, PA
Ralee Miller, and LaShonda King

The Effect of Ultrasound Findings on the Risk of Aneuploidy With a Positive Cell Free DNA Screen [17E]
Gabrielle Rich, DO
Texas Tech Health Science Center - Permian Basin, Odessa, TX
James Maher, MD, Randall Kelly, MD, Hanna Kodeih, DO, and Natalia Schlabritz-Lutsevich, MD

Assessment of Lifestyle Counseling Offered During Pregnancy [18E]
Jason Schneider
University of Florida, College of Medicine, Gainesville, FL
Lisa Beth Spiryda, MD, PhD

Impact of Telephone Reminder on Attrition Rate for Reading of Tuberculin Skin Test in Prenatal Visits [19E]
Aparajita Chaudhuri, MD, DGO
Flushing Hospital Medical Centre, Flushing, NY
Nimra Dad, MD, Alexa Spilsbury, MD, and Georges Sylvestre, MD

Postpartum Cervical Cancer Screening Adequacy and Results: Comparison of Results 2-3 versus 6-8 Weeks Postpartum [20E]
Jenava Carty, MD
Madigan Army Medical Center, Tacoma, WA
Alison Batig, MD

Comparison of Breastfeeding and Exclusive Formula Feeding Rates 2-3 and 6-8 Weeks After Delivery Amongst Primiparas [21E]
Alison Batig, MD
Madigan Army Medical Center, Tacoma, WA
Jenava Carty, MD

PodCare: Structured Individual Prenatal Care for the Academic Team [22E]
Ella A. Damiano, MD
Dartmouth-Hitchcock Medical Center, Lebanon, NH
Daniel J. Gelb, MD, MS, Karen George, MD, Tina C. Foster, MD, MPH, MS, and Regan N. Theiler, MD, PhD

Improving Transfer of Patient Care Information Between OB/GYN’s and Pathology Department [23E]
Robert Day, MD
Kaiser Permanente Santa Clara, Santa Clara, CA
Joelle Lambert, MD, and Kimberly L. Lee, MD

Megha Trivedi
UCSF Department of Dermatology, San Francisco, CA
Takeshi Inouye, MD, and Jenny Murase, MD

A Review of Laser and Light Therapy in Melasma [25E]
Megha Trivedi
UCSF Department of Dermatology, San Francisco, CA
Jenny Murase, MD, and Takeshi Inouye, MD

Trends in Chlamydia Screening Provision During Outpatient Visits for Young Women in the United States [26E]
Emily Flagler
University of Michigan Medical School, Ann Arbor, MI
Emily Kobernik, MPH, CPH, Neil Kamdar, MA, and Vanessa Dalton, MD, MPH

A Survey of Obstetricians and Gynecologists Responses to Practices That Violate Female’s Reproductive Rights [27E]
Alireza A. Shamshirsaz, MD
Baylor College of Medicine, Houston, TX
Amirhossein Moaddab, MD, Jay Schulkin, PhD, Lauren Stark, MPP, Susan Raine, MD, JD, LLM, and Laurence McCullough, PhD

Compliance with ASCCP Guidelines for Evaluation and Management of Abnormal Pap Smears [28E]
Elizabeth Hedman
University of South Dakota Sanford School of Medicine, Sioux Falls, SD
Paul Thompson, PhD, and Keith Hansen, MD

Combined Hormone Pills: Physician Practice Patterns in Two Catholic Affiliated Community Hospitals [30E]
Stacey Pereira, MD
St Joseph Hospital, Chicago, IL

ONCOLOGY

Considering Closed Incision Negative Pressure Therapy for Obese Patients with Gynecologic Malignancies [31E]
Travis Sims, MD
University of Texas Southwestern Medical Center, Dallas, TX
Lavanya H. Palavalli Parsons, MD, David S. Miller, MD, Jayanthi Lea, MD, and Matthew Carlson, MD

Prevalence and Genotyping of HPV in Women With Cervical and Anal Neoplasia [32E]
Melania Amorim
Instituto de Medicina Integral Prof. Fernando Figueira - IMIP, Campina Grande, PB, Brazil
Sandra Heraclio, Alex Sandro Rolland de Souza, and Leila Katz
ELECTRONIC POSTER PRESENTATIONS

Accuracy of Robotic Cytoreduction Estimates for Ovarian Epithelial Malignancies [33E]
John Geisler, MD, MSPharm
Cancer Treatment Centers of America, Newnan, GA
Kelly Manahan, MD, MBA

Evaluation of African American Women at High Risk for Ovarian Cancer in the Southeast [34E]
David A. Barrington, MD
University of Alabama Birmingham, Birmingham, AL
Macie Champion, Meagan Farmer, MS, CGC, Christy Haygood, MD, Teresa Boitano, MD, and Charles A. Leath, MD, MSPH

Determination of Optimal Routine Exchange Frequency After PCN Placement for Malignant Urinary Obstruction [35E]
Stefany Acosta-Torres, MD
University of Texas Southwestern Medical Center, Dallas, TX
Joseph McDevitt, MD, MBA, Ning Zhang, MD, Yin Xi, PhD, Anil Pillai, MD, and David S. Miller, MD

OBSTETRICS
Association of Planned Natural Childbirth With Spontaneous Vaginal Delivery, Interventions, and Complications [36E]
Lauren Cohen, MD
Mount Sinai West, New York, NY
Carolyn Waldron, MA, MS, and Lois Brustman, MD

Association Between Time of Hysterotomy to Delivery and 5-minute Neonatal Apgar Score: A Retrospective Cohort Study [37E]
Natalie Dogal, MD
University of Virginia Department of Obstetrics and Gynecology, Charlottesville, VA
Amaya Cotton-Caballero, MSc, and Donald Dudley, MD

Blood Gas Analysis Utility Predicting Multiple Organ Dysfunction Syndrome in Obstetric Patients [38E]
Montoya Eliana, MD
Universidad del Rosario, Bogota, Colombia
Jorge Carriozza, MD, Alejandro Castro, MD, Alexander Sanchez, MD, and Reinaldo Nino, MD

Convention Center, Ballroom 20A
Sunday, May 7
9:00 AM-10:00 AM
ePoster Session F

CONTRACEPTION/FAMILY PLANNING
Oral Contraceptive Preference and Prescription Patterns Among Primary Care Residents in an Academic Medical Center [1F]
Shiliang Zhang
UCLA David Geffen School of Medicine, Los Angeles, CA
Aparna Sridhar, MD, MPH

Impact on Decisional Quality With Implementation of a Shared Decision Aid for Contraceptive Choice [2F]
Aparna Sridhar, MD, MPH
UCLA Health, Los Angeles, CA
Sylvia Lambrechts, MPH, MA, Lorna Kwan, MPH, Meghana Munnangi, Mona Abutouk, and Christopher Saigal, MD, MPH

What Women Want from Their Doctors About Pregnancy Options Counseling [3F]
Valerie French, MD, MAS
University of Kansas Medical Center, Kansas City, KS
Jody Steinauer, MD, MAS, and Katrina Kimport, PhD

Pregnancy Risk, Contraception and Sexually Transmitted Infections in the Transgender Patient [4F]
Sona Jasani, MD
Rutgers-Robert Wood Johnson Medical School, Piscataway, NJ
Adrian Balica, MD, Ian Marshall, MD, Charletta Ayers, MD, MPH, Gloria Bachmann, MD, MMS, Amanda Francis, DO, MPH

Postpartum LARC Use in Low-Risk Women in Centering Pregnancy® Versus Traditional Nurse Midwifery Prenatal Care [5F]
Tara Hoff, MD
University of Iowa Hospitals and Clinics, Iowa City, IA
Petra Hahn, Jaimie Huntly, Deepii Sharma, MD, Colleen Stockdale, MD, MS, and Abbey Hardy-Fairbanks, MD

Postpartum Contraception Education: Contraceptive Choice and Use of Long-Acting Reversible Contraception (LARC) [6F]
Meghan E. Vaglio, MD, MPH
University of Kansas Medical Center, Kansas City, KS
Catherine Satterwhite, PhD, MSPH, MPH, Carrie Wieneke, MD, FACS, and Sharon Fitzgerald, MPH

Policies Restricting Medicaid Coverage for Pregnancy Termination in Women With Moderate Chronic Kidney Disease [8F]
Karen Scrivner
Oregon Health and Science University, Portland, OR
Emily Clennon, Leah Savitsky, and Aaron B. Caughey, MD, PhD

Perspectives on a Quality Abortion Care Experience: A Patient Centered Approach [9F]
Rachel Mnuk

SUNDAY

Innovative Educational Tool to Enhance Hysteroscopy Learning [18I]
Karissa Hammer, MD  
*Rush University, Chicago, IL*
Louis Fogg, PhD, and Teresa Tam, MD

A Synthetic Cannabinoid Use in Pregnancy: A Brief Educational Intervention for Obstetric Providers and Patients [19I]
Jeffrey Sellers, MD  
*Howard University Hospital, Washington, DC*
Vanessa Nunes, MD

Attitudes Regarding Transitions of Care of Obstetric and Gynecology Patients in a County Hospital Setting [20I]
Angalene Jackson, DO  
*John Peter Smith Health Network, Department of OB/GYN, Fort Worth, TX*
Hayley Marshall, DO, Christine Hoang, MD, and Timothy Kremer, MD

Incorporation of ‘One Health’ Into Obstetrics and Gynecology [21I]
Sona Jasani, MD  
*Rutgers-Robert Wood Johnson Medical School, Piscataway, NJ*
Ashley Fuchs, MD, Sona Jasani, MD, Jonathan Bergmann, DVM, Brint Spencer, and Gloria Bachmann, MD, MMS

Obstetrics and Gynecology Fellowship Interview Preferences [22I]
Emily Barnard, DO  
*Mayo Clinic, Rochester, MN*
Jenifer Byrnes, DO, and John A. Occhino, MD, MS

Correlation Between Perceived Versus Actual Proficiency in OB/GYN Residency Training for Obstetric Ultrasounds [23I]
Christine Sulmers  
*Southern Illinois School of Medicine, Springfield, IL*
Paula Diaz-Sylvester, PhD, Kathleen Groesch, MS, Jacquelyn Patterson, RDMS, Kristin Delfino, PhD, and Funminiyi Taylor, MD, MEd

Assessment of Fetal Ultrasound Training for Obstetrics and Gynecology Residents [24I]
Christine Sulmers  
*Southern Illinois School of Medicine, Springfield, IL*
Paula Diaz-Sylvester, PhD, Jill Cox, RDMS, Heeyoung Han, PhD, Kristin Delfino, PhD, and Funminiyi Taylor, MD, MEd

Attitudes and Self-Reported Competencies in Advocacy Among OB/GYN Residents [25I]
Evelyn Hall, MD  
*Northwestern University, Chicago, IL*
Maura Quinlan, MD, MPH, and Susan Gerber, MD, MPH

Impact of the Universal Adoption of Ring Block Anesthesia Pre-circumcision in a Tertiary Care Center [26I]
Oluwayode Akinlaja, MD, MBA  
*University of Tennessee College of Medicine at Chattanooga, Chattanooga, TN*
Roxanne Beck, MD, Traci Josephsen, MSN, MSW, NP-C, and Mandi Raper, MEd

Impact of Nightfloat on Obstetrics and Gynecology Resident Education [27I]
Alexandra Fenton, MD  
*Tufts Medical Center, Boston, MA*
Alissa Dangel, MD

What Do Medical Students Interested in Obstetrics and Gynecology Value in Their Future Careers? [28I]
My-Linh Nguyen, MD  
*Department of OB/GYN, David Geffen School of Medicine at UCLA, Los Angeles, CA*
Jenny Y. Mei, Amanda Mularz, MD, and Melanie Maykin, MD

Impact of After Hour Availability of Gynecological Surgical and Clinical Supplies on Resident Satisfaction [29I]
Paola Rosa  
*San Antonio Military Medical Center, San Antonio, TX*
Joshua Lospinoso, Larissa Weir, Caela R. Miller, MD

Impacts of Volunteer-Run Clinics on the Next Generation of Health Care Professionals and Their Career Preferences [30I]
Katherine O’Rourke, MD  
*Loyola University Chicago Stritch School of Medicine, Maywood, IL*
 Carly Kruse, MSc, Mary Landry, MD, Madeline Durand, and Scott Graziano, MD, MS

Towards Prevention of the Primary Cesarean Section: A Multi-factorial Approach [31I]
Alyie Runyan, MD  
*DMC/Wayne State, Detroit, MI*
Jacqueline Schiwek, MD, Steven Dudick, MD, Sejal Tamakuwala, DO, Jing Dai, PhD, and Karoline Puder, MD

Identification and Rating of Medical Translator Mobile Applications Using the APPLICATIONS Scoring System [32I]
Amrin Khander, MD  
*Mount Sinai Department of Obstetrics and Gynecology, New York, NY*
Sara Farag, MD, and Katherine Chen, MD, MPH

Identification and Evaluation of Fetal Heart Rate Monitoring Mobile Applications [33I]
Marti Soffer, MD, MPH  
*Icahn School of Medicine at Mount Sinai, New York, NY*
Katherine Chen, MD, MPH

Randomized Trial of Self-Paced vs. Group Introduction to Open Surgical Skills Curriculum [34I]
Lucy Chen, MD  
*University of Texas Southwestern Medical Center, Dallas, TX*
Tobi Fuller, MSN, MS, RN, and Kimberly A. Kho, MD, MPH
HybridLab Learning Method. III. Residual Value of Gynecological Clinical Skills [351]
Ruta Nadisauksiene, MD, PhD
Lithuanian University of Health Sciences, Kaunas, Kauno apskritis, Lithuania
Daiva Vaitiene, MD, PhD, Sonata Barilien, MD, Ieva Andriejaite, Laura Malakauskien, MD, and Evelina Pukenyte, MD

Faculty and Resident Perception of a Standardized Surgical Approach and Teaching Tool for Primary Cesarean Delivery [361]
Megan Pallister, MD
Kelsey-Seybold Clinic, Houston, TX
Jerasimos Ballas, MD, MPH, Catherine Eppes, MD, Michael A. Belfort, MBBC, DAI(SA), MD (Cape Town), PhD, FRCSC, FRCOG, and Christina Davidson, MD

OBSTETRICS
The Influence of Distances to Positional Change and Adequate Distances of Suture Ligature in Laparoscopic Surgery [371]
Shin Takenaka, MD, PhD
Showa University Fujigaoka Hospital, Kanagawa, Japan
Tomomi Matsushita, Tsutomu Muramoto, Ken Nakayama, Miki Morioka, Koichi Ogawa

GYNECOLOGY
Safety of Bevacizumab Therapy in Japanese Recurrent Ovarian Cancer Patients: A Prospective Study [381]
Yoshiko Nanki, MD
Keio University School of Medicine, Tokyo, Japan
Hiroyuki Nomura, Fumio Kataoka, Naomi Iwasa, Mamoru Tanaka, Daisuke Aoki

REPRODUCTIVE ENDOCRINOLOGY/INFERTILITY
Separated Double Embryo Transfer May Be a Novel Method to Prevent Multiple Gestations in Assisted Reproductive Technology Treatment (ART) [391]
Tomoya Hasegawa, MD
Tokyo Medical University, Tokyo, Japan
Koji Nakagawa, Rikikazu Sugiyama, Hirotaka Nishi, Hiroe Ito, Naoaki Kuji, Keiichi Isaka

CONTRACEPTION/FAMILY PLANNING
Postpartum Contraception Acceptance and Readiness for Long Acting Reversible Contraception [401]
Heather Williams, MD
University of Iowa Hospitals and Clinics, Iowa City, IA
Lindsay Goad, MacKenzie Treloar, MD, Rachel Mejia, DO, Colleen Stockdale, MD, MS, and Abbey Hardy-Fairbanks, MD

Convention Center, Ballroom 20A
Sunday, May 7
3:30 PM–4:30 PM
ePoster Session J

ONCOLOGY
Description of Medium- and Long-term Complications After PCN Placement for Malignant Urinary Obstruction [1J]
Stefany Acosta-Torres, MD
University of Texas Southwestern Medical Center, Dallas, TX
Joseph McDevitt, MD, MBA, Ning Zhang, MD, Yin Xi, PhD, Anil Pillai, MD, and David S. Miller, MD

Cost Utility Analysis of Methotrexate Versus Actinomycin-D in Low Risk Gestational Trophoblastic Neoplasia [2J]
John Geisler, MD, MSPPharm
Cancer Treatment Centers of America, Newnan, GA
Kerry Manahan, MD, MBA

Antegrade (AG) Versus Retrograde (RG) Stents for Ureteral Obstruction (UO) In Locally Advanced Cervical Cancer (CC) [3J]
Asha Talati, MD
University Hospitals MacDonald Women’s Hospital, Cleveland, OH
David Sheyn, MD, Sarah Zakem, and Kristine Zanotti, MD

**ELECTRONIC POSTER PRESENTATIONS**

Refer to The Supplement of Obstetrics & Gynecology. It is comprised of the abstracts of all of the presented papers and ePosters at the 65th Annual Clinical and Scientific Meeting of the American College of Obstetrician and Gynecologists.

Electronic posters are available for viewing throughout the meeting. Authors of ePosters will present a brief summary of their posters at the beginning of their time slot then will be available for Q & A during the remainder of the session.

Blue Ribbon abstracts are awarded to those who received the highest ranking.

**Signature Wall**

Support the College Development Fund!
For every signature on the Allergan Signature Wall (Booth 1215),
the Development Fund will receive a $10 donation.
ELECTRONIC POSTER PRESENTATIONS

Refer to The Supplement of *Obstetrics & Gynecology.* It is comprised of the abstracts of all of the presented papers and ePosters at the 65th Annual Clinical and Scientific Meeting of the American College of Obstetrician and Gynecologists.

Electronic posters are available for viewing throughout the meeting. Authors of ePosters will present a brief summary of their posters at the beginning of their time slot then will be available for Q & A during the remainder of the session.

Blue Ribbon abstracts are awarded to those who received the highest ranking.

**Convention Center Ballroom 20A**

**Tuesday, May 9**

**8:00 AM–9:00 AM**

**ePoster Session P**

**ULTRASOUND**

Does Obesity Affect the Assessment of Third Trimester Amniotic Fluid? [1P]
Maria Andrikopoulou, MD, PhD
*Winthrop University Hospital, New York, Mineola, NY*

Wendy Kinzler, MD, Rose Calixte, PhD, Martin Chavez, MD, Galyna Fetsak, MD, and Anthony Vintzileos, MD

Effect of Increased Abdominal Circumference on Outcomes in Ultrasounds With Estimated Fetal Weight Greater Than 90% [2P]
Erica Nicasio, MD
*UMass Medical School, Worcester, MA*

Katherine Leung, MPH, Tiffany A. Moore Simas, MD, MPH, Med, Petra Belady, MD, and Heidi Leftwich, DO

Fetal Damage in Congenital Zika Virus Infection: Cohort Study [3P]

**LoMC**

Levels of Maternal Care

ACOG and SMFM, in partnership with the Centers for Disease Control and Prevention, Arizona Perinatal Trust, and National Perinatal Information Center, developed the Levels of Maternal Care (LoMC) verification program.

The verification program involves a site visit by a multi-disciplinary team of local, state, and regional maternal health care providers who work with an obstetric facility’s perinatal team and leadership to verify the level of care, using a new tool that aligns with the 2015 ACOG/SMFM Levels of Maternal Care Obstetric Care Consensus.¹

*“Through the LoMC program, facilities will be able to assess their capability to handle increasingly complex levels of maternal care and then work collaboratively with other institutions within a region, as well as state and regional authorities, to determine the appropriate coordinated system of care.”*  
—Dr. Heywood Brown, ACOG President

For more information, visit acog.org/LoMC

**Precision Medicine in Women’s Care-Identifying Patients at Risk for Hereditary Cancer**

Holly Pederson, MD

- Attendees will be more proficient with current ACOG guidelines to establish a protocol to assess every woman for their risk factors of Hereditary Gynecologic Cancers during multiple types of office visits
- Attendees will be knowledgeable of recent evidence supporting genetic testing using multi-gene panels for more complete and cost-effective screening as compared to single gene and reflex testing
- Attendees should be familiar with the various resources to facilitate ACOG’s affirmation that Ob-Gyns are fully trained and qualified to counsel patients and order genetic tests in view of the lack of Certified Genetic Counselors

**Genetic Testing: The Next Wave of Malpractice Lawsuits?**

Victor Cotton, MD, JD

- Understand the malpractice risks associated with delays in diagnosis of cancer
- Incorporate practice guidelines into patient care decisions in a manner that is medically and legally sound
- Recognize the risks associated with lab-developed-tests and manage them accordingly

### Join Our Team Supporters

The daily themes of the Annual Clinical and Scientific Meeting make it possible for industry leaders to support our shared areas of focus and commitment. Special thanks to CoverHer.org, a project of the National Women’s Law Center, TherapeuticsMD and Myriad.
PRODUCT THEATERS

Product Theaters are a forum for Annual Meeting Exhibitors to interact with attendees in an intimate theater setting. Product Theaters provide an opportunity to gather and discuss issues on patient education and therapeutic areas, demonstrate new and existing products and provide up-to-date research findings.

Saturday, May 6th

Lunch | 12:15 PM – 1:00 PM  Room 14AB

A Breakthrough First and Only for Premenopausal Women with Acquired, Generalized Hypoactive Sexual Desire Disorder

Supported by: Valeant Women’s Health

Michael Krychman, MD will review the definition and diagnosis of female hypoactive sexual desire disorder (HSDD). He will then discuss the first and only FDA-approved treatment for acquired, generalized HSDD. Lastly, Dr. Krychman will discuss practical considerations related to patient counseling, and education.

Lunch | 12:15 PM – 1:00 PM  Room 15AB

LILETTA® (levonorgestrel-releasing intrauterine system) 52 mg Single-Handed Inserter Product Demonstration

Supported by: Allergan USA, Inc., and Medicines360

Allergan invites you to learn about our Single-Handed Inserter product designed with the insertion process in mind.

Evening Reception | 5:15 PM – 6:30 PM  Room 14AB

A new, local, non-estrogen-steroid alternative for the treatment of moderate-to-severe dyspareunia due to menopause

Supported by: AMAG Pharma

The Future of Treating Dyspareunia: understanding the science behind the treatment of dyspareunia, a symptom of vulvar and vaginal atrophy, due to menopause. This presentation will focus on disease state background, the unmet needs in treating dyspareunia and will review safety and efficacy data for a recently FDA-approved therapy to treat dyspareunia.

Evening Reception | 5:15 PM – 6:30 PM  Room 15AB

Genetic Carrier Screening: Incorporating new guidelines into practice

Supported by: Natera

How do you decide which carrier screening panel to offer your patients? In this session, we will review the 2017 ACOG carrier screening guidelines and how to use them in clinical practice. Specifically, we will discuss how to guide and counsel your patient on the appropriate screening panel for them.

Sunday, May 7th

Breakfast | 7:00 AM – 7:45 AM  Room 14AB

Your Role in Bridging the Gaps to HCV Treatment

Supported by: Gilead Sciences

Learn about HCV, how it progresses, and its serious impact. Discover treatment options for HCV, including an overview of clinical data. Explore a case study of a baby boomer patient with HCV. Understand your role as a frontline provider to connect HCV patients for treatment evaluation.

Evening Reception | 5:15 PM – 6:30 PM  Room 14AB

Evolving Guidelines in Carrier Screening: Adopting an Expanded Approach

Supported by: Counsyl

ACOG has recently acknowledged Expanded Carrier Screening (ECS) as an acceptable screening strategy. Join us to examine: evidence supporting the clinical value of ECS; considerations in ECS panel design; how new technology maximizes detection of at-risk couples; and how to incorporate ECS in daily practice.

Evening Reception | 5:15 PM – 6:30 PM  Room 15AB

Sexual Desire: Everything You Always Wanted to Know but Were Afraid to Ask

Supported by: AMAG Pharma

This product theater will 1) help participants gain a better understanding of the prevalence and burden of Hypoactive Sexual Desire Disorder (HSDD), 2) provide practical tips to facilitate productive dialogue and diagnosis, and 3) enhance understanding of the neurobiology of sexual desire and current measures to assess HSDD.
PRODUCT THEATERS

Monday, May 8th

Breakfast | 7:00 AM – 7:45 AM  Room 14AB

A Case-Based Approach to Diagnosing and Managing Patients with Chronic Pelvic Pain
Supported by: AbbVie

When patients present with chronic pelvic pain (CPP), it can be a long journey to diagnosis and adequate management. Advances in understanding CPP and diseases that may cause it, including endometriosis, could help us arrive at better outcomes. Join us for a case-driven session exploring the latest approaches for CPP.

Breakfast | 7:00 AM – 7:45 AM  Room 15AB

Risk mitigation of infection following cesarean section
Supported by: ConvaTec

Faculty: Dana Gossett, MD – UCSF, Eric Strand, MD – Washington University, Linda Szymanski, MD – Johns Hopkins
· Risk factors for infections
· Advances in protocols to prevent post op complications/infection
· Management of the obese patient

Lunch | 12:15 PM – 1:00 PM  Room 14AB

Breast density: Why it matters and what to do.
Supported by: GE Healthcare

Breast density obscures cancers on a mammogram and recent research indicates it is the leading common risk factor for development of breast cancer. The topic is a frequent fixture on social media, news and medical literature. Learn about clinical and radiological challenges, current research, tools and strategies for managing patients with dense breasts.

Lunch | 12:15 PM – 1:00 PM  Room 15AB

Optimal timing of birth: Should it be 39 weeks and out?
Supported by: Ferring Pharmaceuticals

A presentation on the timing of birth and risks and the benefits of induction of labor presented by Errol Norwitz, MD, PhD, MBA, Louis E. Phaneuf Professor of Obstetrics & Gynecology, Chairman, Department of Obstetrics & Gynecology, Tufts University School of Medicine

Evening Reception | 5:15 PM – 6:30 PM  Room 14AB

Medical Mystery, A Case of Unexplained Recurrent Abdominal Pain
Supported by: Shire

Participants are invited to test their diagnostic skills and uncover the cause of our patient’s symptoms during the presentation at this Medical Mystery. This interactive case study will be led by Marc A. Riedl, MD, MS.

Evening Reception | 5:15PM – 6:30PM  Room 15AB

Vaginal & Vulvar Health: A Novel Treatment Option
Supported by: Cynosure, A Hologic Company

Update on 1 year study outcomes and patient experiences using a fractional CO2 laser.
Presented by Mickey Karram, MD and Irwin Goldstein, MD

Tuesday, May 9th

Breakfast | 7:00 AM – 7:45 AM  Room 14AB

Lead Poisoning and Pregnancy: Why an Ounce of Prevention is Worth a Pound of Cure
Supported by: Magellan Diagnostics

Prenatal lead exposure can have lifelong effects on both mother and developing baby. Lead exposure is more common than many disorders routinely screened for during the first prenatal visit. This session, led by Mary Jean Brown, ScD, RN, will focus on the latest medical research, testing recommendations and managing patients with elevated blood lead levels.

Delivering proof, not promises.

Anyone can make claims about performance. But Hologic delivers proof. Experience that proof firsthand at AGOG 2017:

- Find out how the Genius™ 3D MAMMOGRAPHY™ exam helps reduce uncertainty in breast screening.
- Discover how a single bone scan can help you assess the risk of osteoporosis, obesity and cardiovascular disease.
- Test drive simulated NovaSure® and MyoSure® procedures – and practice these treatments right in our booth.
- Take our Cervical Disease Challenge and learn why Papp+HPV Together® is the preferred cervical disease screening strategy for women aged 30 to 65.12

For over 30 years, Hologic has pushed the boundaries of science to deliver proven products designed to help you diagnose and treat women with growing certainty. So your patients can live longer, stronger and healthier lives.

Stop by Booth #615 at ACOG 2017 and ask for the proof.

HANDS-ON CONTRIBUTORS

Basic Obstetric Ultrasound: A Hands-On Experience - In-kind support
**Ultrasound Machines**
- GE Healthcare
- Hitachi-Aloka
- Philips Healthcare
- MedaPhor North America Inc.
- Samsung Neurologica

Emergencies in Clinical Obstetrics (ECO) - In-kind support
**Simulators and Trainers**
- Gaumard
- Laerdal
- Limbs &Things
- Paradigm Medical Systems

Vacuum Assisted/Forceps Delivery - In-kind support
**Models**
- Clinical Innovations, LLC
- Paradigm Medical Systems

Advancing Your Skills in Operative and Office Hysteroscopy - In-Kind Support
**Hysteroscopy devices and equipment**
- Bayer HealthCare Pharmaceuticals
- Boston Scientific
- CooperSurgical
- Hologic
- Karl Storz Endoscopy-America, Inc.
- Richard Wolf
- Smith & Nephew

Assessing Your Skills with Simulated Vaginal and Laparoscopic Hysterectomy - In-Kind Support
**Products, equipment, and models**
- Boston Scientific
- Cooper Surgical
- Ethicon
- Invuity, Inc.
- Karl Storz Endoscopy-America, Inc.
- Medtronic
- Miyazaki Enterprises
- Olympus

Educational Program Grants
- Bayer
- Gilead

SPEAKER DISCLOSURES

Jacques S. Abramowicz, MD
Royalties: UpToDate

Rebecca H. Allen, MD, MPH
Other Financial or Material Support: Merck Co., Inc.; Trainer: Nexplanon

Ronald D. Alvarez, MD
Consulting Fees (e.g., advisory boards): Inovia and Unleash

Jennifer Ashton, MD, MS
ABC News: Salary

Sarah Berga, MD
Consulting Fees (e.g., advisory boards): BD Life Sciences, UpToDate, Inc., and What's My Fertility; Ferring: Research

Neha Bhardwaj, MD, MS
American College of Obstetricians and Gynecologists (ACOG): Consulting Fees (e.g., advisory boards)

Linda D. Bradley, MD
Consulting Fees (e.g., advisory boards): Bayer; Boston Scientific; Karl Storz Endoscopy; Smith Nephew: Principal Investigator: Clinical Trial; Elsevier: Royalties and UpToDate, Inc.

Andrew I. Brill, MD
Consulting Fees (e.g., advisory boards): Boston Scientific, ETHICON, and KARL STORZ; Honoraria: ETHICON

Aaron B. Caughey, MD, PhD
Ownership Interest (stocks, stock options, or other ownership interest excluding diversified mutual funds): Celmatix and Mindchild

Katherine Chen, MD, MPH
Honoraria: OB/G Management. Royalties: UpToDate, Inc.

Gregory M. Christman, MD
Abbvie Pharmaceuticals: Other Financial or Material Support. Clinical Trial Site Principal Investigator

Shad Deering, MD
Royalties: Gaumard Scientific, Intellectual Property / Patents

Amna I. Dermish, MD
Honoraria: Merck Co., Inc.

Lorraine Dugoff, MD
Other Financial or Material Support; Research funding: Progenity

Libby Edwards, MD
Honoraria: Symposia Medicus. Royalties: wolterskluwer

C. Neill Epperson, MD
Ownership Interest (stocks, stock options, or other ownership interest excluding diversified mutual funds): Abbott, Abbvie, Merck Co., Inc. and Pfizer, Inc.; Consulting Fees (e.g., advisory boards). Asarina Pharma and SAGE Therapeutics; Honoraria: SAGE Therapeutics

Tania Esakoff, MD
Honoraria: Optum Health Education

Kimberly B. Fortner, MD
Other Financial or Material Support; Research funding: Pfizer

Michael Frumovitz, MD, MPH
Consulting Fees (e.g., advisory boards): Novadaq

Amy Garcia, MD
Consulting Fees (e.g., advisory boards): Boston Scientific, Gynesonics Inc. and nVision

Joseph Gauta, MD
Consulting Fees (e.g., advisory boards): Boston Scientific, Cogentix, Inc; Medtronic, and Olympus USA

Richard Guido, MD
Consultant/Advisory Board: Gynesonics

Hope K. Hafner, MD
Previously on the advisory board: Merck Co., Inc.

Stuart Hart, MD
Salary: Medtronic

Paula J. Adams Hillard, MD
Other Financial or Material Support: pro bono consulting: ACLU and Clue by Biowink; Consulting Fees (e.g., advisory boards): Advanstar, McNamara Legal Group, and Sanofi; Honoraria: ebso/pemsoft, Merck Co., Inc.; Other Financial or Material Support, legal consulting: McNamara legal group; Royalties: Wiley blackwell publishing

Melisa Holmes, MD
Intellectual Property / Patents: Girlology

Lennox Hoyte, MD, MSE ECS
Intellectual Property / Patents: I am the inventor of the Hoyte Sacro Tip. marketed by Cooper Surgical: Cooper Surgical

Keith B. Isaacson, MD
Karl Storz Endoscopy: Consulting Fees (e.g., advisory boards)

Mickey Karram, MD
Consulting Fees (e.g., advisory boards): Coloplast and Cynosure; Honoraria: Astellas, Coloplast and Cynosure; Royalties: EMEDSCO

Rosanne Kho, MD
Other Financial or Material Support; Funding provided to my department for ethics consult

Louise P. King, MD, JD
OvaScience: Other Financial or Material Support. Funding provided to my department for ethics consult

Michael Krychman, MD
Consultant and Honorarium: Applied Biology; Palatin technologies; Pfizer: speaker, consultant, honorarium: Pfizer, Sermonix, Shionogi, Valeant

Ted Lee, MD
Honoraria: ETHICON

Michelle Louis, MD
Consultant/advisory board: Teleflex
Shari I. Lusskin, MD
Other Financial or Material Support. Consultant regarding escitalopram litigation: Forest Laboratories, Inc.; Other Financial or Material Support. Consultant regarding sertraline litigation: Pfizer, Inc.; Consulting Fees (e.g., advisory boards): The Reproductive Toxicology Foundation, A Non-Profit Foundation. UpToDate, Inc

Suketu Mansuria, MD
Consultant/Advisory Board: Medtronics

Antoinette M. Marengo-Barbrick, MD
Consulting Fees (e.g., advisory boards): Bayer Healthcare, Honoraria: Merck and Teva

Mark Martens, MD
Prestige Consulting Fees (e.g., advisory boards)

Ross W. McQuivey, MD
Salary: Clinical Innovations, LLC

C. Noel Bairey Merz, MD, FACC, FAHA

Douglas W. Miyazaki, MD
Honoraria. Boston Scientific, Consulting Fees (e.g., advisory boards): Coloplast, Invite, Intellectual Property / Patents. Ownership Interest (stocks, stock options, or other ownership interest excluding diversified mutual funds): Miyazaki Enterprises

Susan Modesitt, MD
Other Financial or Material Support. Myriad gave a grant to my institution for the use of my CME talk on hereditary cancers that I previously developed. Myriad

Tiffany A. Moore Simas, MD, MPH, MEd
Consulting Fees (e.g., advisory boards): Beacon Health Behavioral Partnership, Other Financial or Material Support. Percent FTE as Co-Principal Investigator on study: Centers for Disease Control and Prevention through contract/grant to UMass Medical School

David H. Moreland, MD
Honoraria: Merck Co., Inc.

MONISTAT® treats more than 98.2% of yeast infections¹,²

Plus, miconazole, the active ingredient in MONISTAT®, is the **only** recommended antifungal azole treatment for C. glabrata, the most prevalent *non-albicans* yeast species.²

Receive full-size samples of MONISTAT® at Booth #736 as well as coupons, patient education, and the latest VVC guidance and data.

*Of all non-compounded drug products.
Diflucan is a registered trademark of Pfizer Inc., Terazol is a registered trademark of Johnson & Johnson, and Gynazole is a registered trademark of Perrigo Specialty Pharmaceuticals.
Receive full-size samples of MONISTAT® at Booth #736.

REFERENCES: 1. MONISTAT® treats more than 98% of yeast infections 1,2

*Of all non-compounded drug products.

Diflucan is a registered trademark of Pfizer Inc., Terazol is a registered trademark of Johnson & Johnson, and Gynazole-® * is a registered trademark of Perrigo Specialty Pharmaceuticals.

Fluconazole, Terconazole, Clotrimazole, Butoconazole, Tioconazole, Itraconazole, Nystatin, and Butacene are recommended antifungal azole treatment for yeast species. 2

Only Fluconazole provides the broadest coverage of Candida species, including non-albicans, the most prevalent yeast species. 2

Signature Wall
Support the College Development Fund!
For every signature on the Allergan Signature Wall (Booth 1215),
the Development Fund will receive a $10 donation.

Booth Numbers as of March 21, 2017
FOCUS ON WHAT’S REALLY IMPORTANT: YOUR PATIENTS.

As an obstetrician/gynecologist and officer on the U.S. Army or Army Reserve health care team, you get to focus on what is most important to you - treating patients. You’ll work with recognized experts in their specialized fields, be involved with medical research on diseases of OBGYN and military importance, and ensure proper care is provided to Soldiers and their families. You may also qualify to receive special pay and education loan repayment.

To learn more about a career in the Army Medical Corps, visit Booth #1522 and talk with an Army physician, or go to healthcare.goarmy.com for more information.

For every signature on the Allergan Signature Wall (Booth 1215), the Development Fund will receive a $10 donation.
The Leader In Women’s Health Precision Medicine
Myriad myRisk® is Revolutionizing Hereditary Cancer Testing

Please attend an interactive workshop
Tuesday, May 9th, 9:00 am - Noon

Precision Medicine in Women’s Care:
Identifying Patients at Risk for Hereditary Cancer
ACOG Annual Clinical Meeting, San Diego Convention Center

Presented By:
Holly J. Pederson, MD  Director, Medical Breast Services, Cleveland Clinic
Victor Cotton, MD, JD  President, Law & Medicine, Hershey, PA

Genetic Counselors will help to lead interactive breakouts during workshop

For more information, please visit:
www.MyriadPro.com/ACOG
## PRODUCT INDEX

### EQUIPMENT, Breastfeeding Products
- Fairhaven Health, LLC .................................................. 826
- Medela LLC ..................................................................... 216

### EQUIPMENT, Cameras, Surgical
- Gauss Surgical, Inc .......................................................... 649
- Intuitive Surgical ............................................................... 1130
- Karl Storz Endoscopy ....................................................... 534
- Lina Medical ..................................................................... 1054
- Richard Wolf Medical Instruments Corporation ..................... 650
- The Prometheus Group ..................................................... 1415

### EQUIPMENT, Catheters & Catheter Systems
- Bioteque America Inc ....................................................... 744
- Cook Medical .................................................................... 1431
- MedGyn Products Inc ...................................................... 1730
- MPM Medical Supply ....................................................... 1636
- Titus Medical LLC ............................................................. 1057

### EQUIPMENT, Colposcopes
- CooperSurgical, Inc ......................................................... 1123
- Edan Instruments Inc ....................................................... 1344
- Gynex ............................................................................. 845
- Kernel Medical Equipment Co., Ltd .................................... 551
- Lutech Industries Inc ........................................................ 727
- MedGyn Products Inc ...................................................... 1730

### EQUIPMENT, Computer Software
- AlertWatch ....................................................................... 1148
- Dorsata ............................................................................. 1035
- drchrono, Inc .................................................................... 655
- Edan Instruments Inc ....................................................... 1344
- SonoSim, Inc ..................................................................... 627
- Whusa ............................................................................. 652

### EQUIPMENT, Cryosurgical
- Brymill Cryogenic Systems ................................................. 142
- CooperSurgical, Inc ......................................................... 1123
- CryoProbe ......................................................................... 1133
- MedGyn Products Inc ...................................................... 1730
- Premier Medical Products ............................................... 731

### EQUIPMENT, Diagnostics Equipment/Systems/Kits
- Advanced Tactile Imaging, Inc ............................................ 752
- BD Diagnostics Systems ..................................................... 1351
- Epigenomics ..................................................................... 1450
- GE Healthcare ................................................................... 225

In an international multicenter survey of patients treated in tertiary care centers
7 out of 10 endometriosis patients experience unresolved pain despite management.¹

Are your patients suffering in silence?
Stop by Booth #323 to learn more.

Reference:

Change doesn’t take commitment, leadership, or collaboration...

It takes all three.

As leaders in Urology, we relentlessly pursue new science to make a difference in patients’ lives. We make it our priority to stay on the cutting edge of urologic research to address unmet clinical and patient needs. And our commitment extends beyond product development. We seek to support the Urology community and to improve the lives of patients with urologic disease.

Changing tomorrow together, today.
